

New Members

The next *Directory for Members* is planned for April 1960. The following members have been added to the Society's rolls since the list published in Jan. 1959. Also listed are those regretfully reported as deceased since that date. The designations of grades are the same as those used in the *Directory*. An up-to-date list of the Sustaining Members appears on the outside back cover of each month's *Journal*.

Fellow (F)	Active (M)	Associate (A)	Student (S)
<i>Deceased</i>

**JUST WHAT IT TAKES
TO MAKE THE SHOW...**

**THE EASY TO READ—EASY TO OPERATE
STUDIOSOUND S-301-R PROGRAM EQUALIZER**

Assure the success of your shows or recording sessions with the always dependable S-301-R... check these top performance StudioSound specifications:

LOW-FREQUENCY EQUALIZATION: 12 db in 2 db steps at 100 cps & 40 cps (shelving characteristic).

HIGH-FREQUENCY EQUALIZATION: 12 db in 2 db steps at 3, 5, 7, 10 and 15 kc.

LOW-FREQUENCY ATTENUATION: 16 db in 2 db steps at 100 cps with shelving characteristic.

This star performer has built-in flexibility, it's available complete on one panel or in component form.

Other fine StudioSound components vital to a good show are: StudioSound Filters, Pads and Networks. Special components are made to your order. For further information contact:

STUDIO SUPPLY CO.
711 So. Victory Blvd. Burbank, California Box Z-4-59

Now available: higher fidelity sound tracks, more light for color printing. The newly improved Design 6190 Bell & Howell sound head is a vast improvement over all existing types. It delivers higher fidelity sound tracks and provides more available light for color printing. And because it makes possible single-pass printing, it steps up your output while reducing costs. Installation is simple on any 16mm Bell & Howell printer. Also available in a new 35mm version—the Design 6210. Write Professional Equipment Division, 7185 McCormick Road, Chicago, Ill. ➤ **Bell & Howell**

Spotlight on

Gevaert Sound Recording Film S. T. 6

From the lowest whisper to the most piercing note, every sound is recorded with the utmost clarity on Gevaert S. T. 6. The high resolving power of the emulsion and the absence of "fill-in" guarantee sound recordings superlatively clear and well defined. This scientifically balanced emulsion practically eliminates all ground noise, and at the same time permits excellent recording quality, even in the highest frequencies.

SMPTE Test Films

Test films planned by the Society's technical committees and produced under the Society's exact supervision are available from the headquarters office at 55 West 42 St., New York 36. Catalogs containing brief descriptions of each film are obtainable on request.

These films are used by manufacturers for testing the performance of new equipment, by television station technicians for lining up and adjusting film pickup systems, by maintenance men for "in service" maintenance of projectors and sound equipment, and by dealers for testing and demonstration equipment.

Films are available in the following categories.

- Television — Picture Only, Color or Black-and-White
- CinemaScope
- Visual 35mm — Picture Only
- Magnetic — 16mm Sound Only
- Picture and Sound — 16mm
- Picture Only — 16mm
- Glass Slide — 16mm

Membership Certificates (Active and Associate members only). Attractive hand engrossed certificates, suitable for framing for display in offices or homes, may be obtained by writing to Society headquarters, at 55 West 42nd St., New York 36, Price: \$2.50.

These notices are published for the service of the membership and the field. They are inserted three months, at no charge to the member. The Society's address cannot be used for replies.
