## MAJOR BREAKTHROUGH IN SPRAY DEVELOPING

# NEW FILMLINE S-60

### 16/35MM NEG/POS SPRAY PROCESSOR

- DEVELOPS NEGATIVE FILM AT 35 FPM
- DEVELOPS POSITIVE FILM AT 60 FPM

The S-60 is Filmline's newest Spray Processor. It is a friction drive processor, guaranteed not to break or scratch film. Absolute control of footage in each chamber insures sensitometric quality control and consistent development. And Filmline processors (unlike competitive makes) have lower film assemblies that are adjustable and remain captive in the position placed.

The S-60 is the specific answer to every laboratory's need for a Spray Processor—because it outperforms machines costing twice as much. Also available for 16mm only. For the full story on the S-60 write today to:

**Filmline CORPORATION**  
MILFORD, CONNECTICUT  
World's Largest Manufacturer of Film Processors

- Film chamber doors are completely removable for easy access to entire chamber (Not found in competitive models of similar class)
- Processing section is stainless steel • Impingement dry box • Precision temperature controls with indicating pilot lights for cooling & heating • 316 Stainless steel pumps for developing & hypo solution • Water temperature regulator • Dual air squeegee • Feed in take up elevators for continuous operation • Replenishment flow meters • Manual & automatic brake for film supply • Automatic electrical torque motor take-up • Variable drive with film speed tachometer • Precision Thermometer & footage counter.
