able applicants for these positions must possess a degree in a field of physical science from an accredited college or university and must have had a minimum of three (3) years of broad, responsible, and progressive professional experience in physical science. These positions require a thorough knowledge of the fundamental concepts and theories of chemistry, physics, electronics, and statistical quality control as are employed in advanced research and development in photographic technology. Experience is desired with the development of military photographic reconnaissance equipment.

One Physical Science Technician (General) at a starting salary of \$8045 per year. Acceptable applicants must have a minimum of seven years progressive experience in photographic processing techniques for high definition photographic reproduction using such instruments as sensitometers, densitometers, microdensitometers, microscopes and resolving power camera.

Further information concerning these positions may be procured by applying to the Central Civilian Personnel Office (BFC), Westover Air Force Base, Massachusetts.

Motion Picture Printer. Experience in duplication of motion-picture film, B/W and color. Will operate step-contact, continuous (B/H), and Acme optical printers. Responsibilities will include inspection, evaluation, exposure, timing and titling of documentary and instrumentation footage for the largest processing laboratory west of Los Angeles. Familiarity with techniques of sensitometry, densitometry, color correcting, density timing for exposure, and preventative maintenance of equipment is desirable. Laboratory is located at Kwajalein Atoll; no family housing is available. Excellent opportunity for financial advancement, increased experience and additional responsibility. Send resume to: Kentron Hawaii, Ltd., Navy FPO 824, Box 1207, San Francisco, Calif. Att: H. S. Weisbrod, Photo Optics Supervisor.
