577 EXPOSURE CONTROL

Introduction • *Pierre Mertz* / Exposure Meters and Measuring Techniques in Telefilm Exposure Control • *Harold Wright* / Exposure Control and Stray-Light Component • *James W. Harris* / Reflectance Meter With Exposure-Control Advantages of Incident-Light Meter • *Burton J. Askowith* / Spot Photometers in Exposure Control • *Harold P. Field*

594 Xenon Illuminator Systems for 35mm and 70mm Projection • *A. T. Puder and D. Mortensen*

597 A New Concept of Optical Printer Construction • *Harold A. Scheib*

600 A 35mm Reflex Camera System Incorporating Video Monitoring and Recording  
• *Edmund M. Di Giulio*

602 A Solid-State Television Fader-Mixer Amplifier • *A. R. Kaye*

607 A Positive, Electric Film Brake for Use on Continuous, Film Processing Machines  
• *Everett L. Hanson*

609 Résumés — Resúmenes — Zusammenfassungen

98th SMPTE Technical Conference • Oct. 31–Nov. 5 • Queen Elizabeth Hotel, Montreal
