

CHICAGO
102
SMPTE
Technical Conference
& Exhibit

September 17 – 22

After a lapse of five years, the SMPTE returns to Chicago for its 102nd Semiannual Technical Conference and Equipment Exhibit.

A fall conference is always special. It is then that the Society presents its annual awards. Once again the awards will be presented at the Get-Together Luncheon which will be held Monday, September 18 in the Marine Room of the Edgewater Beach Hotel. SMPTE President G. Carleton Hunt will address the members and introduce the guest speaker. The name of the guest speaker will be announced shortly before the Conference.

The Papers Program will be strong and comprehensive. Program Chairman Hans C. Wohlrab, Bell & Howell Co., Chicago, and his Topic Chairmen have hammered out a rich program aimed at attracting the attendance of engineers, scientists, technicians and executives from all the disciplines in which the Society takes an interest.

Added to the technical sessions is a visit to the Argonne National Laboratory on Thursday evening, September 21. At Argonne, there will be a dinner, two technical papers and a tour of the laboratory.

The Topic Chairmen and their respective topics are: Jack Behrend, *Cinematography*; Frederick T. Sharp, *Medicine*; William D. Hedden, *Laboratory Practice*; Steve Knudsen, *Education*; Victor Armstrong, *Aerospace and Oceanography*; I. F. Jacobsen, *Theater*; Harold Kinzle, *Studio Techniques*; Hans C. Wohlrab, *International Papers*; William C. Kusack, *Television*; Warren H. Lieb, *Sound*; Richard O. Painter, *Instrumentation and High-Speed Photography*.

Changes in Program

Due to the early *Journal* publication in relation to the Conference date, the Advance Program on the following pages is tentative and should not be considered final. There will probably be changes before the Final Program brochure is published just prior to the Conference; indeed there will no doubt be many additional papers to be fitted in well after this is published. Those who can attend only a portion of the sessions are urged to telephone one of the numbers given in the introduction to the Advance Program on the following page, to find out when a specific paper is to be given.

Edgewater Beach Hotel — Site of the 102nd Conference

Equipment Exhibit

Many of the world's leading manufacturers and suppliers of motion-picture and television equipment will participate in the 102nd Conference Equipment Exhibit set for the Edgewater Room. There will be 86 booths of equipment on display. Denis Howe, Wilding Inc., Chicago, is Exhibit Chairman.

Several exhibitors will have more than one booth; many will present papers and give demonstrations of their equipment at a special session Wednesday morning, September 20.

On Monday, September 18, at 5 p.m., there will be a formal opening of the Exhibit when Conference Vice-President E. B. (Mike) McGreal and Exhibit Chairman Howe cut the ribbon opening the doors of the Exhibit. All Conference registrants and holders of exhibit passes will be invited to attend the Exhibitors' Open House in the Edgewater Room where refreshments will be served.

Ladies Program

The Ladies Program Committee, Gloria Koch and Nancy Hilliard, co-chairmen, has tentatively selected activities for the Ladies Program that the committee feels are representative of what is unique in Chicago. According to Mrs. Koch and Mrs. Hilliard, all places the ladies will see exist nowhere but in Chicago. Many did not exist at all in 1962, the last time the SMPTE held its Conference in Chicago.

On Sunday afternoon, September 17, the ladies will be welcomed in the Ladies Hospitality Suite, the American Room and the Illinois Room in the Edgewater Beach. Sunday evening, at 8, there will be a free pre-release motion picture at the hotel.

After the SMPTE Get-Together Luncheon on Monday afternoon, the ladies will board busses for a trip to Marina City Towers. These twin circular towers have become the new pictorial symbol of Chicago.

Tuesday morning the ladies will ride to Old Town, to visit artists in their homes and studios, to see a wine museum, and to lunch and shop in the gay nineties atmosphere of the "fair that never closes."

Wednesday is free for swimming in the Edgewater's heated pool (September is warm in Chicago); a shopping trip to the loop via hotel limousine, an appointment at the beauty

shop, or anything else. Suggestions about additional places of interest in Chicago will be available in the Ladies Headquarters.

Thursday morning, the ladies will tour the North Shore by bus, along Lake Michigan past parks, residences and Northwestern University. The bus will stop at the famous Baha'i House of Worship, the beautiful North Shore Congregation Israel, the Vice-President Charles Gates Dawes Mansion. The ladies will lunch at Fanny's Restaurant in Evanston.

Friday morning the ladies will travel down to Chicago's south shore to Chicago's unique Museum of Science and Industry to see Colleen Moore's doll house, to walk down a street of 1910 and stop at a silent movie, to walk through a magnified human heart, and to tour the captured German Submarine U-505. After a leisurely time at the museum, the ladies will go to the new Kellogg Center at the University of Chicago, for luncheon and a tour of the University of Chicago campus.

Finances for the ladies program is being solicited by Bruce Peterson, Hospitality Chairman, Peterson Enterprises, Inc., Glenview, Ill.

Association of Cinema Laboratories

Fall Meeting, September 15-16
Edgewater Beach Hotel, Chicago

Friday Evening

5:30 Board of Directors Reception and Dinner — Illinois Room

Saturday

9:00-5:00 Meeting of ACL members—East Lounge
12:00 Luncheon—South Terrace
6:30 Dinner—Crystal Ballroom

Tentative Committee Meeting Schedule

Wednesday, September 20

8:00 (Breakfast) Publications Advisory
9:00 Board of Editors
10:30 Papers Committee
12:30 Editorial Luncheon

These engineering committees will meet during the week.

Laboratory Practices
16 and 8mm
Film Projection Practices
Color
Film Dimensions
Television
Sound
Instrumentation and High-Speed Photography

This schedule will be listed in the Conference Program; meeting announcements will be mailed to committee members.

Advance Registration

To avoid delay and inconvenience when arriving at the Conference, all are encouraged to register in advance. Advance registration forms have been mailed to members, and should be returned with payment in the business reply envelope provided. Badges and tickets will be waiting for registrants at the Registration Desk. Additional advance registration forms are available from SMPTE Headquarters.

Members have been sent postage-paid hotel reservation cards for accommodations at the Edgewater Beach Hotel. All who seek reservations at the Edgewater Beach should be sure to note that reservations are for the SMPTE Conference. Address: Edgewater Beach Hotel, 5300 Block - Sheridan Road, Chicago, Ill. 60640.

NOTE: Rooms at the Edgewater Beach are being held for SMPTE registrants only until September 11. Reservations must be made before that date if accommodations are to be secured.

If you are not now regularly receiving the SMPTE JOURNAL, participating in the Society's local Section meetings and semiannual Technical Conferences, or being informed about the technological studies of our industry made by the Society's engineering committees . . .
