# EXPLOSIVES SPECIALISTS

Honeywell Ordnance Division, the nation's leader in the ordnance field, has an immediate need for Explosives Specialists.

This lead position requires BS/MS Engineering or Physics plus two or more years designing and implementing experiments involving detonation characteristics; an understanding of detonation physics, ultra-high speed photography, and radiographic techniques; measuring the performance of explosive trains and main charges; experience in application of standard explosives testing techniques.

The Ordnance Division of Honeywell is located in a pleasant residential area of suburban Minneapolis. Minnesota is considered to be the recreational center of the midwest, with over 10,000 lakes throughout the state. It is the ideal location for the family man who is looking for a wholesome, progressive community in which to raise his family.

If you are interested in looking further into these openings, please call collect or write:
