# We know every way to hurry without hurrying!

We hurry everything but quality. We've got everything going for us so we can hurry without hurrying. We deliver faster than any laboratory in the country. Quicker than laboratories "just around the corner" from you wherever you are. How come? We start every job the very minute it comes in. In by 9—out by 5 service is routine on most processing. Our delivery trucks rush to waiting jets. And with jets and air expeditors what they are that almost always means one day service. We have an even-faster

service where "you set the deadline—we meet it." It's called Acme Accelerated Service. Your order receives uninterrupted attention from the moment it enters our doors until it's back in your hands. Besides, we know what we're doing. Our technicians average 14 years of experience (with us!). Uniquely, we're both a film—and a videotape laboratory. No time is lost in between laboratories. Quality? They call us Acme. Deservedly. Sure our competitors produce quality. But slowly. We're the laboratory that delivers

quality in a hurry—one day service to anywhere. The best quality, too. Why not make us prove it? At least send for our new 28-page illustrated catalog & price list. We'll be glad to hear from you.
