

New Members

The following members have been added to the Society's rolls since the March 1969 *Journal*. Also listed are those regretfully reported as deceased since then. The designations of grades are the same as those used in the July 1968 Directory. An up-to-date list of the Sustaining Members appears on the outside back cover of each month's *Journal*. The members listed below complete the Society's roll as of April 15.

Life Fellow (LF) Active (M) Associate (A) Student (S)

Deceased: John W. Apitsch (A) Toshihiko Inoue (M) Earl J. Vallen (M)
Herbert L. Bird (A) Maurice Levy (F) Eric Williams (M)
Alan Gordon (M) Mrs. Jean Lewis (A) Paul A. Williams (M)
Gene A. Hartmann (M) H. Beresford Smith (M)

Now- A 16mm Xenon Lamphouse

from America's leading manufacturer of 35mm carbon arc and Xenon bulb projection lamphouses. The Mighty Mite provides theatre quality projection of 16mm film and can also be mounted on 35mm projectors.

The steady daylight white light is four to eight times brighter than an incandescent and permits big, brilliant pictures with faithful color reproduction.

"Mighty Mite" Systems, in 450, 900 or 1600 wattages include lamphouse, silicon transformer-rectifier power supply and the bulb which has a life expectancy of 2,000 hours.

They show people who quit high school average \$45 a week less than people who finish.
Another fact: 7 out of 10 people looking for jobs are graduates. If your child isn't, he'll have that much more
trouble getting a job in the first place.

So when he asks, "Why do I have to stay in school?" now you know what to answer.

Bauer's new Selection II0 is the permanent installation projector that has everything. It's the ideal projector for schools, screening rooms, studios, advertising agencies and industrial and business installations that can't gamble on quality.

From one of the world's largest manufacturers of professional equipment, the Bauer Selection II0 offers the most brilliant illumination possible, with a Xenon lamphouse accommodating 450, 900 or 1600 watt lamps.

Its Geneva (Maltese Cross) Movement and automatic "oil bath" lubrication mean steadier, smoother running projection and more positive film protection. And its 5000 foot capacity allows some 2½ hours of uninterrupted film run.

The Selecton II0 doesn't stint on sound quality, either. A built-in solid state pre-amplifier assures high fidelity sound from both optical and magnetic tracks.

All this, plus human-engineered push-button controls and a range of precision projection lenses from 25mm to 75mm. Prices start at \$4,125.

Also studio models with single and double (16/16) band operation, programmed push-button control... full line of accessories.

Allied Impex Corp., 168 Glen Cove Road, Carle Place, N. Y. 11514
Chicago, Dallas, Los Angeles.

The best thing yet in a big package.
