

Denver Aerial — The snow-capped Rockies form a spectacular backdrop for the shining new skyscrapers of downtown Denver. At far left is the Queen City's classic Civic Center. In the center foreground is the gold-domed State Capitol Building, modeled after the US Capitol in Washington, DC. The thirteenth step of the west side of the Capitol is exactly one mile (5,280 ft) above sea level. Denver's tallest buildings are Brooks Towers, 42-stories, in the background at left center, and the 31-story Security Life Building at right center.

9TH INTERNATIONAL CONGRESS ON HIGH-SPEED PHOTOGRAPHY

DENVER, COLORADO • AUGUST 2 THROUGH AUGUST 7, 1970

Plans for the 9th International Congress on High-Speed Photography are nearing completion. Over 150 papers have been submitted for consideration. Congress Chairman Carlos H. Elmer, Program Chairman Robert D. Shoberg and Editorial Chairman William G. Hyzer have chosen 100 papers for presentation. The complete program of titles and abstracts will be published in the *July Journal*.

Due to the large number of papers proposed for the Congress, about 15 papers which include motion-picture presentations will be presented in two technical sessions on Monday and Tuesday evenings of Congress week. These two sessions should prove to be extremely interesting to both delegates and families attending the Congress.

All persons registering for the Congress will be supplied with badges admitting them to all functions of the Congress. With the exception of individuals' hotel accommodations, Congress registrations are all-inclu-

9th Congress Imminent

sive and there is no further requirement for participation in Congress events, including social functions. Complete registration fees for the week are \$90.00 for delegates and \$45.00 for accompanying persons. Authors who might be unable to participate in a major portion of the Congress will be issued complimentary tickets admitting them to those technical sessions at which they are to present papers. These technical session tickets are also available to non-authors at the rate of \$20.00 for any one day.

In addition to the Technical Program, an exhibit of specialized high-speed photographic equipment will be shown in conjunction with the Congress. Approximately 40 companies are expected to display their products.

Authors are reminded that their manuscripts are due at Society Headquarters by June 1. Format sheets and instructions have been sent to all authors.
