116th SMPTE Conference and Exhibit Four Seasons Sheraton, Toronto, Nov. 10-15

A surging sense of excitement has developed among the Toronto committeemen as work for the 116th Conference gathers momentum. Planning had begun more than a year ago, but as the November Conference date draws closer, the activity of the committeemen steadily increases.

By mid-May, several papers had already been submitted, so the papers program is off to an unusually early start. Program Chairman **Maurice French**, C.B.C., expects some program details to be available for publication in the *July Journal*.

The list of Topic Chairmen had been published in the May *Journal*, (p. 447), but a listing of the session topics certainly deserves a recapitulation: Television Systems; Photo Instrumentation; Films for Television; Motion-Picture Systems; Super 8mm; Theater Design and Projection; Satellites in Broadcasting; Cable Television; Television and Film in Education; Laboratory Practices; Sound Recording and Education; and Program Identification Systems.

Those interested in presenting papers have until June 24 to submit author forms and 500-700 word synopses of papers, though late papers may be accepted if there is room on the program. The necessary materials are available from SMPTE Headquarters, or from Program Chairman **Maurice French**, Canadian Broadcasting Corp., P.O. Box 500, Station "A," Toronto M5W 1E6, Ontario, Canada.

Local Arrangements Chairmen Named

Conference Vice-President **Harry Teitelbaum**, Hollywood Film Co., has appointed **Alex MacGregor**, O.E.C.A., Arrangements Chairman for the 116th Conference. MacGregor will supervise all non-program arrangements and will be responsible to Mr. Teitelbaum. Under MacGregor will be a group of Committee Chairmen who will handle specific details of Conference arrangements, as listed below.
