

# New Members

The following members have been added to the Society's rolls since the June 1975 *Journal*. Also listed are those regretfully reported as deceased since then. The designations of grade are the same as those used in the March 1974 *Directory for Members*. An up-to-date list of the Sustaining Members appears on the outside back cover of each month's *Journal*. The members listed below complete the Society's roll as of July 31.

The *Directory for Members, Part II* of the March 1974 *Journal*, shows the geographic membership distribution within each Section.

## The Progress Report

The Progress Report, an annual report on world progress in the motion-picture, television, photoinstrumentation and related industries appears each year in the May *Journal*. It is one of the many important services offered by the Society; as an informative report it is looked for by members and nonmembers throughout the world.

Gathering the information for a comprehensive report is no easy task for the members of the Progress Report Committee. It cannot be emphasized too often that an informative report depends on the cooperation of many individuals. Even the most active and knowledgeable committee member cannot be completely informed about all the events that have taken place during the year in his field. Therefore, we depend upon the help of many individuals representing many organizations. If you know of some new trend, development or product of your firm

(or elsewhere) of this year (1975), the information (with photographs or drawings if available) should be sent to SMPTE Headquarters (Att: Progress Report). A second copy should be sent to Progress Report Committee Chairman William D. Hedden, Calvin Communications Inc., 215 W. Pershing Road, Kansas City, MO 64108; or the information can be given to a Committee Member (see p. 347 of the May 1975 *Journal*).

Everything to go into the Progress Report in the May 1976 *Journal* should be at SMPTE Headquarters no later than the first week in January and preferably before.

The vastness of the fields to be covered make it doubly important that SMPTE member firms and individuals make every effort to assist Progress Report Committee members by providing information of their own activities during 1975.
