

## AUTHOR INDEX, VOLUME XV

ABRIBAT, MARCEL	Progress in Industrial and Scientific Cinematography in France	214
BRISTOL, WM. H.	Improved Synchronizing Apparatus for Sixteen Millimeter Films with Disk Records	494
CECCARINI, O. O.	The Measurement of Light Valve Resonance by the Absorption Method	60
CLARK, L. E.	Some Considerations in the Design of Sound-Proof Camera Housings	165
CRABTREE, J. I. (and C. E. IVES)	Presidential Address The Storage of Valuable Motion Picture Film A Modified Film Waxing Machine A Replenishing Solution for a Motion Picture Positive Film Developer	246 289 370 627
(and C. E. IVES and FORDYCE TUTTLE)	A Semi-Automatic Timing Device for Motion Picture Negatives	587
DASH, C. C.	Operation of Projection Arcs from Motor Generator Sets	702
DIMMICK, G. L.	Galvanometers in Variable Area Recording	428
DUBRAY, JOSEPH A. (and A. S. HOWELL)	A New Photometer Exposure Meter Wide Film Shrinkage and Its Effects as a Factor in Determining Proper Dimensional Specifications for a New Standard	710 306
DWORSKY, A. S.	A New Buffing Machine	676
EVANS, PORTER H.	A Comparative Study of Sound on Disk and Film	185
EYRING, CARL F.	Conditions under Which Residual Sound in Reverberant Rooms May Have More Than One Rate of Decay	528
FAULKNER, TREVOR	The Maintenance of Sound Film in Exchange Operation and the Degree That Sound Reproduction Is Affected by the Continued Use of Sound Track Film	501
FRANKLIN, HAROLD B.	Talking Pictures—The Great Internationalist	17
FRIEBUS, R. T.	The Progress of Sound Motion Pictures Some Considerations Affecting the Design of Phonograph Needles	809 484
GOLDEN, N. D. (and C. J. NORTH)	Meeting Sound Film Competition Abroad	749
GRIFFIN, HERBERT	Some New Projection Equipment	641
HANSON, R. L.	One Type of Acoustic Distortion in Sound Picture Sets	460

HAYS, WILL H.	Scientific Progress and the New Era in Motion Pictures	263
HOLMAN, ARTHUR J.	The Revolving Lens Wheel Projector	20
HOPKINS, H. F.	Considerations in the Design and Testing of Motion Picture Screens for Sound Picture Work	320
HOWELL, A. S. (and J. A. DUBRAY)	Wide Film Shrinkage and Its Effects as a Factor in Determining Proper Dimensional Specifications for a New Standard	306
HUNT, FRANKLIN L.	Production Aspects of a Technical Lecture Sound Picture	473
IRBY, FRANKLIN S.	Recent and Future Economic Changes in the Motion Picture Field	332
	International Relations in the Sound Picture Field	739
IVES, C. E. (and J. I. CRABTREE)	The Storage of Valuable Motion Picture Film	289
	A Modified Film Waxing Machine	370
	A Replenishing Solution for a Motion Picture Positive Film Developer	627
(and J. I. CRABTREE and FORDYCE TUTTLE)	A Semi-Automatic Timing Device for Motion Picture Negatives	587
JENKINS, C. FRANCIS	The Engineer and His Tools	260
	A Silhouette Studio	381
	Television Systems	445
KELLOGG, EDWARD W.	A New Recorder for Variable Area Recording	653
LOVELAND, R. P.	A Method for the Determination of Exposures in Cinematography	689
MANHEIMER, JAC. R.	Some Aspects of the National Electrical Code as Applied to the Motion Picture Industry	145
MATTHEWS, GLENN E.	A Motion Picture Made in 1916 by a Two-Color Subtractive Process	624
McFARLANE, J. W. (and CLIFTON TUTTLE)	The Measurement of Density in Variable Density Sound Film	345
MIEHLING, RUDOLPH	The Becquerel Effect and Its Adaptation to Talking Picture Systems	281
MILLER, WESLEY C.	Volume Control by the Squeeze Track	53
MITCHELL, R. FAWN	The Cinematography of Brownian Movement with the Filmo Camera	679
MONOSSON, L. I.	The Soviet Cinematography	509
NICHOLSON, R. F.	The Processing of Variable Density Sound Records	374
NORTH, C. J. (and N. D. GOLDEN)	Meeting Sound Film Competition Abroad	749
PALMER, M. W. (and A. J. RICHARDS)	A Proposed New Method of "Timing" Negatives	181
RAYTON, WILBUR B.	A Proposed New Series of Standard Focal Lengths for Motion Picture Projection Objectives	277

RICHARDS, A. J. (and M. W. PALMER)	A Proposed New Method of "Timing" Negatives	181
RICHARDSON, ELMER C.	A Microphone Boom	41
	Tilt Heads and Rolling Tripods for Camera Blimps	46
RINGEL, A. S.	Sound-Proofing and Acoustic Treatment of RKO Stages	352
RODWELL, S.	X-Ray Cinematography	815
ROPER, V. J. (and H. I. WOOD)	Trend of Lamp Development and Operation in Motion Picture Projectors Employing 16 Mm. Film	824
ROSENBERGER, HEINZ	Progress in Micro Cinematography	439
RUSSELL, G. OSCAR (and CLIFTON TUTTLE)	Some Experiments in Motion Photography of the Vocal Cords	171
SANDVIK, OTTO	Apparatus for the Analysis of Photographic Sound Records	201
SCHROTT, PAUL	Applied and Scientific Cinematography in Austria	223
SETTE, W. J. (and S. K. WOLF)	Factors Governing Power Capacity of Sound Reproducing Equipment in Theaters	415
SHAPIRO, A.	A New Sixteen Millimeter Projector	598
STRYKER, N. R.	Scanning Losses in Reproduction	610
THALBERG, IRVING	Technical Activities of the Academy of Motion Picture Arts and Sciences	3
THOMPSON, LINCOLN	A New Power Amplifier System	602
TUTTLE, CLIFTON (and G. OSCAR RUSSELL) (and J. W. MCFARLANE)	Some Experiments in Motion Photography of the Vocal Cords	171
	The Measurement of Density in Variable Density Sound Film	345
TUTTLE, FORDYCE  (and J. I. CRABTREE and C. E. IVES)	A Compounded Geneva Pull-Down for Motion Picture Printers	671
	A Semi-Automatic Timing Device for Motion Picture Negatives	587
TUTTLE, HARRIS B.	Some Experiments in Medical Motion Pictures in Color	193
VILLIERS, W. A.	Modern Practice in Incandescent Cinema Studio Lighting	451
WOLF, S. K. (and W. J. SETTE)	Factors Governing Power Capacity of Sound Reproducing Equipment in Theaters	415
WOOD, I. H. (and V. J. ROPER)	Trend of Lamp Development and Operation in Motion Picture Projectors Employing 16 Mm. Film	824
