NEW YORK SECTION

At a meeting of the Board of Managers of the New York Section held on November 5th at 250 Madison Avenue, New York, N. Y., plans and policies to be followed during the current year were discussed in addition to various financial matters involved in drawing up a budget under which to operate. The tentative plans evolved give promise of an extremely interesting series of meetings of which there will be eight, scheduled approximately one month apart.

A meeting of the Section will be held on Wednesday, December 9th, in the auditorium of the Engineering Societies Building, 33 West 39th Street, New York, N. Y. Mr. H. A. Frederick of the Bell Telephone Laboratories will repeat his paper entitled "Vertical Sound Records; Recent Fundamental Advances in Mechanical Records on Wax," which was presented at the Swampscott Convention on October 7th. A demonstration, employing considerably more elaborate apparatus than was used at the Swampscott Meeting, will be given. Leopold Stokowski, director of the Philadelphia Orchestra, will address the meeting, following Mr. Frederick's technical discussion, on the problems of recording from the standpoint of a musician.
