

AUTHOR INDEX, VOLUME XVIII

JANUARY TO JUNE, 1932

	<i>Issue Page</i>
AALBERG, J. O.	Studio Projection and Reproduction Practice May 652
BARTON, F. C.	Victrolac Motion Picture Records April 452
BURKE, BURT S.	Thermionic Tube Control of Theater Lighting Jan. 90
CARROLL, B. H. (and D. HUBBARD)	The Mechanism of Hypersensitization May 600
CHAMBERS, G. A.	Process Photography June 782
CHRISLER, V. L. (and W. F. SNYDER)	Measurements with a Reverberation Meter April 479
CLARK, L. E.	Sound Recording for Independent Productions May 659
COLE, D. M.	Sound in the Los Angeles Theater Los Angeles, Calif. Mar. 365
COOK, A. A.	Optics of Projectors for 16 Mm. Film April 461
CRABTREE, J.	Directional Effects in Continuous Film Processing Feb. 207
CRABTREE, J. I. (and H. D. RUSSELL)	The Reducing Action of Fixing Baths on the Silver Image Mar. 371
CURTIS, A. M. (and T. E. SHEA and C. H. RUMPEL)	The Rapid Record Oscillograph in Sound Picture Studies Jan. 39
DAVIS, R. (and G. K. NEELAND)	Variation of Photographic Sensitivity with Different Light Sources June 732
DAVIS, R. (and G. K. NEELAND)	Variation of Photographic Sensitivity with Development Time June 742
DEPUE, O. B.	A Machine for Printing Picture and Sound Simultaneously and Automatically May 643
DUBRAY, J. A. (and A. S. HOWELL)	Proposed Change in the Present Standards of 35 Mm. Film Perforations April 503
DUNOYER, LOUIS	Lighting of Sound Films Jan. 3
EDGERTON, H. E.	Stroboscopic and Slow-Motion Moving Pictures by Means of Intermittent Light Mar. 356
FRAYNE, J. G. (and H. C. SILENT)	Western Electric Noiseless Recording May 551
FREDERICK, H. A.	Vertical Sound Records: Recent Fundamental Advances in Mechanical Records on "Wax" Feb. 141

GEOGHEGAN, G	Some Color Problems	May	619
GOEHNER, W. R. (and T. E. SHEA and W. HERRIOTT)	The Principles of the Light Valve	June	697
GOLDEN, N. D. (and C. J. NORTH)	The European Film Market—Then and Now	April	442
HALL, V. C.	The Decibel in the Motion Picture In- dustry	Mar.	292
HERRIOTT, W. (and T. E. SHEA and W. R. GOEHNER)	The Principles of the Light Valve	June	697
HOLDEN, E. C.	Silica Gel Air Conditioning for Film Processing	April	471
HOWELL, A. S. (and J. A. DUBRAY)	Proposed Change in the Present Stand- ards of 35 Mm. Film Perforations	April	503
HUBBARD, D. (and B. H. CARROLL)	The Mechanism of Hypersensitization	May	600
IVES, H. E.	The Problem of Projecting Motion Pic- tures in Relief	April	417
JONES, L. A.	Photographic Sensitometry, Part III	Jan.	54
JONES, L. A.	Photographic Sensitometry, Part IV	Mar.	324
KELLY, M. J.	Vacuum Tube and Photoelectric Tube Developments for Sound Picture Sys- tems	June	761
LEAHY, W.	Time-and-Temperature vs. the Test System for Development of Motion Picture Negatives	May	649
MAY, R. P.	16 Mm. Sound Film Dimensions	April	488
NEELAND, G. K. (and R. DAVIS)	Variation of Photographic Sensitivity with Different Light Sources	June	732
NEELAND, G. K. (and R. DAVIS)	Variation of Photographic Sensitivity with Development Time	June	742
NIXON, I. L.	Optical Instruments and Their Applica- tion in the Motion Picture Industry	Mar.	304
NORTH, C. J. (and N. D. GOLDEN)	The European Film Market—Then and Now	April	442
OLSON, H. F.	Recent Developments in Theater Loud Speakers of the Directional Baffle Type	May	571
RUMPEL, C. H. (and A. M. CURTIS and T. E. SHEA)	The Rapid Record Oscillograph in Sound Picture Studies	Jan.	39
RUOT, M.	The Motion Picture Industry in Japan	May	628
RUSSELL, H. D. (and J. I. CRABTREE)	The Reducing Action of Fixing Baths on the Silver Image	Mar.	371
SCHLANGER, BEN	Utilization of Desirable Seating Areas in Relation to Screen Shapes and Sizes and Theater Floor Inclinations	Feb.	189

SCHROTT, P.	The Selenophon Sound Recording System	May	622
SCHWARTZ, R. P. (and H. B. TUTTLE)	Advantages of Using 16 Mm. Super-sensitive Panchromatic Film in Making Medical Motion Pictures	May	609
SHEA, T. E. (and A. M. CURTIS and C. H. RUMPEL)	The Rapid Record Oscillograph in Sound Picture Studies	Jan.	39
SHEA, T. E. (and W. HERRIOTT and W. R. GOEHNER)	The Principles of the Light Valve	June	697
SHEPPARD, S. E.	Résumé of the Proceedings of the Dresden International Photographic Congress	Feb.	232
SILENT, H. C. (and J. G. FRAYNE)	Western Electric Noiseless Recording	May	551
SNYDER, W. F. (and V. L. CHRISLER)	Measurements with a Reverberation Meter	April	479
SPENCE, J. L.	Mechanical Advantages of the Optical Intermittent Projector	May	593
STRONG, H. H.	A Reflector Arc Lamp for Portable Projectors	June	752
STOKOWSKI, LEOPOLD	Sound Recording-- From the Musician's Point of View	Feb.	164
TUTTLE, CLIFTON	On the Assignment of Printing Exposure by Measurement of Negative Characteristics	Feb.	172
TUTTLE, H. B. (and R. P. SCHWARTZ)	Advantages of Using 16 Mm. Supersensitive Panchromatic Film in Making Medical Motion Pictures	May	609
TUTTLE, W. N.	A Method of Measuring Directly the Distortion in Audio Frequency Amplifier Systems	Feb.	199
VICTOR, A. F.	The Animatophone A New Type 16 Mm. Synchronous Disk Reproducer	April	512
WALKER, V.	Special Process Technic	May	662
WESTERBERG, J. F.	Size of Image as a Guide to Depth of Focus in Cinematography	May	655
WHITE, D. R.	Two Special Sensitometers	Mar.	279
WHITE, D. R.	Gamma by Least Squares	May	584
WOLF, S. K.	The Acoustics of Large Auditoriums	April	517
WOOD, R. V.	A Device for Printing Sound Films	June	788
