

CLASSIFIED INDEX, VOLUME XIX

JULY TO DECEMBER, 1932

Acoustics.

Report of the Sound Committee, No. 2 (August), p. 160.

Theater Noise Problems, S. K. WOLF and J. E. TWERDDEALE, No. 6 (December), p. 499.

American Standards Association.

S. M. P. E. Requests National Standards for Motion Picture Industry, No. 4 (October), p. 393.

Apertures.

New Dimensional Standards, No. 1 (July), p. 924.

Report of the Standards and Nomenclature Committee, No. 5 (November), p. 477.

Apparatus, General.

The Lapel Microphone and Its Application to Public Address and Announcing Systems, W. C. JONES and D. T. BELL, No. 3 (September), p. 219.

Modern Tools and Methods Used in Servicing Sound Equipment, J. MAURAN, No. 3 (September), p. 260.

Committee Reports.

Museum, No. 2 (August), p. 203.

Museum, No. 4 (October), p. 396.

Non-Theatrical Equipment, No. 2 (August), p. 199.

Progress, No. 2 (August), p. 117.

Projection Practice, No. 2 (August), p. 184.

Projection Screens, No. 2 (August), p. 191.

Sound, No. 1 (July), p. 924.

Sound, No. 2 (August), p. 160.

Sub-Committee on Exchange Practices, No. 1 (July), p. 925.

Sub-Committee on Exchange Practices, No. 4 (October), p. 395.

Sub-Committee on Laboratory Practices, No. 4 (October), p. 395.

Standards and Nomenclature (New Dimensional Standards), No. 1 (July), p. 924.

Standards and Nomenclature, No. 5 (November), p. 477.

Constitution and By-Laws.

New Amendments, No. 2 (August), p. 215.

Development of Motion Picture Film.

Sub-Committee on Laboratory Practices, No. 4 (October), p. 395.

Drying of Motion Picture Film.

Drying Conditions and Photographic Density, D. R. WHITE, No. 4 (October), p. 340.

Duplication of Motion Picture Film.

The Duplication of Motion Picture Negatives, J. I. CRABTREE AND C. H. SCHWINGEL, No. 1 (July), p. 891.

Education, Visual.

Standards and Requirements of Projection for Visual Education, C. L. GREENE, No. 5 (November), p. 424.

Emulsions, Photographic.

Photographic Emulsions, L. W. PHYSIOC, No. 1 (July), p. 913.

Exchanges.

Sub-Committee on Exchange Practices, No. 4 (October), p. 395.

Release Print Problems of the Distributor, J. A. GOVE, No. 5 (November), p. 410.

Exhibition.

Problems of a Theater Manager, N. GLASSER, No. 3 (September), p. 272.

Theater Problems of the Release Print, No. 5 (November), p. 407.

Film, Damage to, in Use.

The Film Problems of Theater Operation, S. SUMNER, No. 3 (September), p. 286.

Film, Photographic Characteristics.

Drying Conditions and Photographic Density, D. R. WHITE, No. 4 (October), p. 340.

Photographic Emulsions, L. W. PHYSIOC, No. 1 (July), p. 913.

Filters, Light.

The Precise Measurement of Filter Factors and Photographic Reflecting Powers, L. A. JONES and J. W. MCFARLANE, No. 4 (October), p. 361.

Gammameters.

The Sensitometric Control of Sound Records on Film, A. KÜSTER and R. SCHMIDT, No. 6 (December), p. 539.

General.

Photographic Emulsions, L. W. PHYSIOC, No. 1 (July), p. 913.

Modern Tools and Methods Used in Servicing Sound Equipment, J. MAURAN, No. 3 (September), p. 260.

Problems of a Theater Manager, N. GLASSER, No. 3 (September), p. 272.

How the S. M. P. E. Can Be of Greater Service to Theater Managers, C. E. LEWIS, No. 3 (September), p. 275.

The Film Problems of Theater Operation, S. SUMNER, No. 3 (September), p. 286.

Theater Operating Problems, M. A. LIGHTMAN, No. 3 (September), p. 291.

The Future of Motion Pictures, C. SMITH, No. 3 (September), p. 294.

The Literature of the Motion Picture Industry, G. E. MATTHEWS, No. 5 (November), p. 451.

Theater Noise Problems, S. K. WOLF and J. E. TWEEDDALE, No. 6 (December), p. 499.

Recording Artificial Speech in Motion Pictures, C. W. BARRELL, No. 6 (December), p. 561.

Finishing a Motion Picture, W. C. HARCUS, No. 6 (December), p. 553.

Historical.

Photographic Emulsions, L. W. PHYSIOC, No. 1 (July), p. 913.

Report of the Museum Committee, No. 2 (August), p. 203.

Museum Committee, No. 4 (October), p. 396.

Home Motion Picture Equipment.

Report of the Non-Theatrical Equipment Committee, No. 2 (August), p. 199.

A 16 Mm. Sound-on-Film Projector, H. C. HOLDEN, No. 3 (September), p. 228.

Motion Pictures with Sound on Standard 16 Mm. Film, H. G. TASKER and A. W. CARPENTER, No. 3 (September), p. 237.

A Portable 16 Mm. Sound Picture System, R. A. MILLER and H. PFANNENSTIEHL, No. 3 (September), p. 249.

Illumination in Photography.

Use of the Photoelectric Cell in Cinematography, L. KUTZLEB, No. 6 (December), p. 528.

Illumination in Printing.

Illumination in Projection Printing of Motion Pictures, C. TUTTLE and D. A. YOUNG, No. 1 (July), p. 842.

A New Light Control for Printing Machines, K. SCHNEIDER, No. 1 (July), p. 865.

Illumination, Projectors.

Standardization of Projection Lamps, E. W. BEGGS, No. 1 (July), p. 817.

Biplane Filament Construction—A High Intensity Incandescent Lamp Light Source for Motion Picture Projection, J. T. MILL, No. 1 (July), p. 829.

Incandescent Lamps for Projection.

Standardization of Projection Lamps, E. W. BEGGS, No. 1 (July), p. 817.

Biplane Filament Construction—A High Intensity Incandescent Lamp Light Source for Motion Picture Projection, J. T. MILL, No. 1 (July), p. 829.

Index.

Author Index, Volume XIX, No. 6 (December), p. 587.

Classified Index, Volume XIX, No. 6 (December), p. 590.

Laboratory Apparatus.

The Bell & Howell Fully Automatic Sound Picture Production Printer, A. S. HOWELL, B. E. STECHBART, and R. F. MITCHELL, No. 4 (October), p. 305.

The Precise Measurement of Filter Factors and Photographic Reflecting Powers, L. A. JONES and J. W. MCFARLANE, No. 4 (October), p. 361.

Use of the Photoelectric Cell in Cinematography, L. KUTZLEB, No. 6 (December), p. 528.

The Sensitometric Control of Sound Records on Film, A. KÜSTER and R. SCHMIDT, No. 6 (December), p. 539.

Lenses

The Bell & Howell Cooke Varo Lens, A WARMISHAM and R. F. MITCHELL, No. 4 (October), p. 329.

Short Focus Lenses for Projection with Translucent Screens, W. B. RAYTON, No. 6 (December), p. 512.

Memorandum on Widening the Field of Camera Lenses and on the Use of Normal Films for the Panoramic Screen, H. DAIN, No. 6 (December), p. 522.

Literature of Motion Picture Industry.

The Literature of the Motion Picture Industry, G. E. MATTHEWS, No. 5 (November), p. 451.

Microphones.

The Lapel Microphone and Its Application to Public Address and Announcing Systems, W. C. JONES and D. T. BELL, No. 3 (September), p. 219.

Museum.

Report of the Museum Committee, No. 2 (August), p. 203.

Museum Committee, No. 4 (October), p. 396.

Naval Projection Equipment.

Sound Motion Picture Equipment for the U. S. Navy, S. W. COCHRAN, No. 1 (July), p. 872.

Motion Pictures in the U. S. Navy, C. E. FRASER, No. 6 (December), p. 546.

Non-Theatrical Equipment.

Report of the Non-Theatrical Equipment Committee, No. 2 (August), p. 199.

A 16 Mm. Sound-on-Film Projector, H. C. HOLDEN, No. 3 (September), p. 228.

Motion Pictures with Sound on Standard 16 Mm. Film, H. G. TASKER and A. W. CARPENTER, No. 3 (September), p. 237.

A Portable 16 Mm. Sound Picture System, R. A. MILLER and H. PFANNENSTIEHL, No. 3 (September), p. 249.

Obituary.

L. T. Troland, No. 1 (July), p. 927.

W. R. Brewster, No. 3 (September), p. 300.

V. R. Cralley, No. 3 (September), p. 300.

H. Dain, No. 3 (September), p. 300.

J. A. LeRoy, No. 3 (September), p. 300.

Optics.

Illumination in Projection Printing of Motion Pictures, C. TUTTLE and D. A. YOUNG, No. 1 (July), p. 842.

The Bell & Howell Cooke Varo Lens, A. WARMISHAM and R. F. MITCHELL, No. 4 (October), p. 329.

Short Focus Lenses for Projection with Translucent Screens, W. B. RAYTON, No. 6 (December), p. 512.

Memorandum on Widening the Field of Camera Lenses and on the Use of Normal Films for the Panoramic Screen, H. DAIN, No. 6 (December), p. 522.

Panoramic Pictures.

Memorandum on Widening the Field of Camera Lenses, and on the Use of Normal Films for the Panoramic Screen, H. DAIN, No. 6 (December), p. 522.

Photoelectric Cell.

Use of the Photoelectric Cell in Cinematography, L. KUTZLEB, No. 6 (December), p. 528.

Power Supply, for Reproducing Equipment.

The Application of Rectifier Power Supply to Sound Reproducing Equipment, B. F. W. HEYER, No. 5 (November), p. 437.

Printer Light Control.

A New Light Control for Printing Machines, K. SCHNEIDER, No. 1 (July), p. 865.

Printers.

The Bell & Howell Fully Automatic Sound Picture Production Printer, A. S. HOWELL, B. E. STECHBART, and R. F. MITCHELL, No. 4 (October), p. 305.

Printing.

Illumination in Projection Printing of Motion Pictures, C. TUTTLE and D. A. YOUNG, No. 1 (July), p. 842.

A New Light Control for Printing Machines, K. SCHNEIDER, No. 1 (July), p. 865.

The Duplication of Motion Picture Negatives, J. I. CRABTREE and C. H. SCHWINGEL, No. 1 (July), p. 891.

"Processing" of Release Prints.

Release Print Problems of the Distributor, J. A. GOVE, No. 5 (November), p. 410.

The Treatment of New Film Prior to Release, T. FAULKNER, No. 5 (November), p. 419.

Production.

Finishing a Motion Picture, W. C. HARCUS, No. 6 (December), p. 553.

Progress.

Progress in the Motion Picture Industry: Report of the Progress Committee, No. 2 (August), p. 117.

Projection, General Information.

Sound Motion Picture Equipment for the U. S. Navy, S. W. COCHRAN, No. 1 (July), p. 872.

The Screen—A Projectionist's Problem, F. M. FALGE, No. 1 (July), p. 909.

Report of the Projection Practice Committee, No. 2 (August), p. 184.

Report of the Projection Screens Committee, No. 2 (August), p. 191.

Theater Problems of the Release Print, No. 5 (November), p. 407.

Standards and Requirements of Projection for Visual Education, C. L. GREENE, No. 5 (November), p. 424.

Memorandum on Widening the Field of Camera Lenses and on the Use of Normal Films for the Panoramic Screen, H. DAIN, No. 6 (December), p. 522.

Motion Pictures in the U. S. Navy, C. E. FRASER, No. 6 (December), p. 546.

Projection Lamps.

Standardization of Projection Lamps, E. W. BEGGS, No. 1 (July), p. 817.

Biplane Filament Construction—A High Intensity Incandescent Lamp Light Source for Motion Picture Projection, J. T. MILL, No. 1 (July), p. 829.

Projection Optics.

Short Focus Lenses for Projection with Translucent Screens, W. B. RAYTON, No. 6 (December), p. 512.

Projectors, Continuous.

Inertia in the Service of Cinematography, W. C. PLANK, No. 6 (December), p. 565.

Projectors, Portable.

A 16 Mm. Sound-on-Film Projector, H. C. HOLDEN, No. 3 (September), p. 228.

Projectors, Special Type.

Sound Motion Picture Equipment for the U. S. Navy, S. W. COCHRAN, No. 1 (July), p. 872.

Motion Pictures in the U. S. Navy, C. E. FRASER, No. 6 (December), p. 546.

Inertia in the Service of Cinematography, W. C. PLANK, No. 6 (December), p. 565.

Public Address Systems.

The Lapel Microphone and Its Application to Public Address and Announcing Systems, W. C. JONES and D. T. BELL, No. 3 (September), p. 219.

Publications of the Motion Picture Industry.

The Literature of the Motion Picture Industry, G. E. MATTHEWS, No. 5 (November), p. 451.

Rectifiers.

The Application of Rectifier Power Supply to Sound Reproducing Equipment, B. F. W. HEYER, No. 5 (November), p. 437.

Release Prints.

Theater Problems of the Release Print, No. 5 (November), p. 407.

Release Print Problems of the Distributor, J. A. GOVE, No. 5 (November), p. 410.

The Treatment of New Film Prior to Release, T. FAULKNER, No. 5 (November), p. 419.

Screens.

The Screen—A Projectionist's Problem, F. M. FALGE, No. 1 (July), p. 909.

Report of the Projection Screens Committee, No. 2 (August), p. 191.

Short Focus Lenses for Projection with Translucent Screens, W. B. RAYTON, No. 6 (December), p. 512.

Sensitometry, Methods and Instruments.

The Sensitometric Control of Sound Records on Film, A. KÜSTER and R. SCHMIDT, No. 6 (December), p. 539.

Servicing Motion Picture Equipment.

Modern Tools and Methods Used in Servicing Sound Equipment, J. MAURAN, No. 3 (September), p. 260.

Sixteen Millimeter Equipment.

Report of the Non-Theatrical Equipment Committee, No. 2 (August), p. 199.

A 16 Mm. Sound-on-Film Projector, H. C. HOLDEN, No. 3 (September), p. 228.

Motion Pictures with Sound on Standard 16 Mm. Film, H. G. TASKER and A. W. CARPENTER, No. 3 (September), p. 237.

A Portable 16 Mm. Sound Picture System, R. A. MILLER and H. PFANNENSTIEHL, No. 3 (September), p. 249.

Report of the Standards and Nomenclature Committee, No. 5 (November), p. 477.

Sound Installations in Theaters.

Modern Tools and Methods Used in Servicing Sound Equipment, J. MAURAN, No. 3 (September), p. 260.

The Application of Rectifier Power Supply to Sound Reproducing Equipment, B. F. W. HEYER, No. 5 (November), p. 437.

Sound Recording, General Information

Recording Artificial Speech in Motion Pictures, C. W. BARRELL, No. 6 (December), p. 561.

Sound Recording, Variable Density Method.

Wave Form Analysis of Variable Density Sound Recording, O. SANDVIK and V. C. HALL, No. 4 (October), p. 346.

The Sensitometric Control of Sound Records on Film, A. KÜSTER and R. SCHMIDT, No. 6 (December), p. 539.

Sound Recording, Variable Width Method.

Extension of the Frequency Range of Film Recording and Reproduction, G. L. DIMMICK and H. BELAR, No. 5 (November), p. 401.

Sound Reproduction, General Information.

Report of the Sound Committee, No. 2 (August), p. 160.

Motion Pictures with Sound on Standard 16 Mm. Film, H. G. TASKER and A. W. CARPENTER, No. 3 (September), p. 237.

A. Portable 16 Mm. Sound Picture System, R. A. MILLER and H. PFANNENSTIEHL, No. 3 (September), p. 249.

Modern Tools and Methods Used in Servicing Sound Equipment, J. MAURAN, No. 3 (September), p. 260.

The Application of Rectifier Power Supply to Sound Reproducing Equipment, B. F. W. HEYER, No. 5 (November), p. 437.

Sound Reproduction, Variable Width Method.

Extension of the Frequency Range of Film Recording and Reproduction, G. L. DIMMICK and H. BELAR, No. 5 (November), p. 401.

Standardization.

Standardization of Projection Lamps, E. W. BEGGS, No. 1 (July), p. 817.

S. M. P. E. Requests National Standards for Motion Picture Industry, No. 4 (October), p. 393.

Standards and Nomenclature.

New Dimensional Standards, No. 1 (July), p. 924.

Report of the Standards and Nomenclature Committee (New Dimensional Standards), No. 1 (July), p. 924.

Standards and Requirements of Projection for Visual Education, C. L. GREENE, No. 5 (November), p. 424.

Report of the Standards and Nomenclature Committee, No. 5 (November), p. 477.

Theater Noises.

Theater Noise Problems, S. K. WOLF and J. E. TWEDDALE, No. 6 (December), p. 499.

Theater Operation.

Problems of a Theater Manager, N. GLASSER, No. 3 (September), p. 272.

How the S. M. P. E. Can Be of Greater Service to Theater Managers, C. E. LEWIS, No. 3 (September), p. 275.

The Film Problems of Theater Operation, S. SUMNER, No. 3 (September), p. 286.

Theater Operating Problems, M. A. LIGHTMAN, No. 3 (September), p. 291.

The Future of Motion Pictures, C. SMITH, No. 3 (September), p. 294.

Theater Problems of the Release Print, No. 5 (November), p. 407.

Theater Noise Problems, S. K. WOLF and J. E. TWEBDDALE, No. 6 (December), p. 499.

Trick Photography.

The Bell & Howell Cooke Varo Lens, A. WARMISHAM and R. F. MITCHELL, No. 4 (October), p. 329.

Wave-Form Analysis.

Wave Form Analysis of Variable Density Sound Recording, O. SANDVIK and V. C. HALL, No. 4 (October), p. 346.

Wide Pictures.

Memorandum on Widening the Field of Camera Lenses and on the Use of Normal Films for the Panoramic Screen, H. DAIN, No. 6 (December), p. 522.

Zoom Lens.

The Bell & Howell Cooke Varo Lens, A. WARMISHAM and R. F. MITCHELL, No. 4 (October), p. 329.
