MICROPHONE MIXER INSURANCE

Can you afford to risk a mixer breakdown with all the grief and expense it brings? You know you can't.

Then why not give us the opportunity of showing you the new Type 653 Volume Control, a step-by-step precision-built unit that sells for only \$12.50? It is practically noiseless in dynamic-microphone circuits and is the equal in performance and reliability of controls selling for many times its price.

Try it out. Send us your order for one or more. Test them for 10 days. Then, if you don't want to keep them, send them back in good condition and we'll cancel the invoice or refund your money if you paid cash.

If you prefer to see specifications, ask us to send you the *General Radio Experimenter* for February. Address General Radio Company, Cambridge, Massachusetts.

GENERAL RADIO Co.
INSTRUMENTS OF PRECISION AND DEPENDABILITY

PAMPHLETS, BOOKLETS, AND CATALOGUES

Manufacturers of motion picture equipment and supplies are requested to send to the General Office of the Society copies of their descriptive pamphlets, booklets, and catalogues as issued. Notices of the issuance of this material will be published in the *JOURNAL*, advising the readers that the material may be obtained free of charge by addressing the manufacturers named. This editorial service has been established in order to acquaint readers of the *JOURNAL* with the commercial developments of the motion picture industry as quickly as they occur.
