

# THE NEW STUDIO LIGHT

## NATIONAL COPPER COATED MOTION PICTURE STUDIO CARBONS

### *BALANCED LIGHT*

Color composition accurately balanced to the color sensitivity of modern motion picture film. No need for speed reducing filters.

Curve A—Energy Distribution from the new 40 ampere Studio Carbon Arc  
Curve B—Color Sensitivity of Supersensitive Panchromatic Motion Picture Film

### *COOL LIGHT*

At equal photographic intensity, the new studio carbon arc projects far less heat onto the stage than any other source of studio illumination.

A TRIAL IN YOUR STUDIO

## NATIONAL CARBON COMPANY, INC.

Carbon Sales Division, Cleveland, Ohio

Unit of Union Carbide  and Carbon Corporation

Branch Sales Offices: New York - Pittsburgh - Chicago - San Francisco

*Remarkable*

# EMULSION

---

---

**T**HE exceedingly fine grain of Eastman Background Negative easily meets the chief requirement of composite photography. But, in addition to minute grain this new negative has surprising speed and excellent processing characteristics. Exhibiting a rare combination of qualities, it stands out as a remarkable emulsion . . . one that is gaining in importance every day. You are urged to explore its wide possibilities. Eastman Kodak Company. (J. E. Brulatour, Inc., Distributors, New York, Chicago, Hollywood.)

*Background Negative*

# When You Need It, You Need It Badly

» » » THE footage you “shoot” on backgrounds for composite shots may be quite small. But when you need film for this purpose, you need Eastman Background Negative—and you need it badly. Only with this special new film as a starting point does composite photography perform to the fullest its double function of enriching the picture and meeting modern production demands. J. E. Brulatour, Inc., New York, Chicago, Hollywood.

## PAMPHLETS, BOOKLETS, AND CATALOGUES

Manufacturers of motion picture equipment and supplies are requested to send to the General Office of the Society copies of their descriptive pamphlets, booklets, and catalogues as issued. Notices of the issuance of this material will be published in the JOURNAL, advising the readers that the material may be obtained free of charge by addressing the manufacturers named. This editorial service has been established in order to acquaint readers of the JOURNAL with the commercial developments of the motion picture industry as quickly as they occur.

### FILM RECORDING EQUIPMENT

Type 3S Complete Recording Equipment.

Single or Double System, Variable Density or Variable Area, Studio or Portable.

*Write or cable for literature*

## ADVERTISE IN THE JOURNAL OF THE SOCIETY OF MOTION PICTURE ENGINEERS

*Rates may be obtained by writing to the  
General Office of the Society at*

33 WEST 42nd ST., NEW YORK, N. Y.

## EMPLOYMENT ADVERTISEMENTS

In order to assist members of the Society who desire to obtain positions, the Board of Governors has authorized the establishment in the JOURNAL of an "Employment Page." Advertisements will be available to members of the S. M. P. E. who desire positions and to manufacturing concerns seeking trained men. Material for publication is subject to editing, and must be sent to the General Office of the Society by the 10th of the month prior to publication.

Each employment advertisement shall not exceed one-sixth page in length; a charge of \$2.00 will be made for a single insertion, or \$5.00 for three consecutive insertions.
