

## CLASSIFIED INDEX, VOLUME XXVIII

JANUARY TO JUNE, 1937

### Aberration

The Effect of Aberrations upon Image Quality, W. B. Rayton and A. A. Cook,  
No. 4 (April), p. 377.

### Acoustics

Transmission of Sound and Vibration in Buildings, E. Meyer, No. 3 (March),  
p. 271.

### Animation

A Third Dimensional Effect in Animated Cartoons, J. E. Burks, No. 1 (Jan.),  
p. 39.

Trick and Process Cinematography, J. A. Norling, No. 2 (Feb.), p. 136.

### Apparatus

A Record Word-Spotting Mechanism, R. H. Heacock, No. 1 (Jan.), p. 63.

A New High-Quality Portable Film-Recording System, F. L. Hopper, E. C.  
Manderfeld, and R. R. Scoville, No. 2 (Feb.), p. 191.

A New High-Quality Film Reproducer, J. C. Davidson, No. 2 (Feb.), p. 202.  
Recent Developments in High-Intensity Arc Spotlamps for Motion Picture  
Production, E. C. Richardson, No. 2 (Feb.), p. 206.

The Schwarzkopf Method of Identifying Criminals, J. Frank, Jr., No. 2 (Feb.),  
p. 212.

A Neon-Tube Oscilloscope for the Projection Room, F. H. Richardson and  
T. P. Hover, No. 3 (March), p. 304.

New Recording Equipment, D. Canady, No. 3 (March), p. 309.

A New Reel-End Alarm, D. Canady and V. A. Welman, No. 3 (March), p. 314.

A Demonstration Triode for Visualizing Electronic Phenomena, F. E. Eldredge  
and H. F. Dart, No. 3 (March), p. 318.

A Review of the Quest for Constant Speed, E. W. Kellogg, No. 4 (April), p. 337.

Three-Wire D-C. Supply for Projection Arcs, C. C. Dash, No. 4 (April), p. 427.

A Single-Channel Recording and Re-Recording System, H. I. Reiskind, No. 5  
(May), p. 498.

The RCA Sound Recording System, M. C. Batsel and E. W. Kellogg, No. 5  
(May), p. 507.

A Neon Type Volume Indicator, S. Read, Jr., No. 6 (June), p. 633.

Reproducing Equipment for Motion Picture Theaters, M. C. Batsel and  
C. N. Reifsteck, No. 6 (June), p. 643.

### Applied Motion Picture Photography

Soft X-Ray Motion Pictures of Small Biological Specimens, H. F. Sherwood,  
No. 6 (June), p. 614.

### Arcs

Mercury Arcs of Increased Brightness and Efficiency, L. J. Buttolph, No. 1.  
(Jan.), p. 43.

Recent Developments in High-Intensity Arc Spotlamps for Motion Picture Production, E. C. Richardson, No. 2 (Feb.), p. 206.

Three-Wire D-C. Supply for Projection Arcs, C. C. Dash, No. 4 (April), p. 427.

### Cameras

Research Council Specifications for a Standard Synchronizing System for Cameras, No. 3 (March), p. 265.

### Cartoons

A Third-Dimensional Effect in Animated Cartoons, J. E. Burks, No. 1 (Jan.), p. 39.

Trick and Process Cinematography, J. A. Norling, No. 2 (Feb.), p. 136.

### Color

Standardization of Motion Picture Make-Up, M. Factor, No. 1 (Jan.), p. 52.

The Analysis and Specification of Color, K. S. Gibson, No. 4 (April), p. 388.

Open Forum, No. 5 (May), p. 536.

### Color Cinematography

The Projection of Lenticular Color-Films, J. G. Capstaff, O. E. Miller, and L. S. Wilder, No. 2 (Feb.), p. 123.

Medical Motion Pictures in Color, R. P. Schwartz and H. B. Tuttle, No. 2 (Feb.), p. 173.

A Brief Survey of the Physics and Technology of the Berthon-Siemens Color Process, Edgar Gretener, No. 5 (May), p. 447.

Open Forum, No. 5 (May), p. 536.

### Committee Personnel

Near the rear of each issue of the JOURNAL.

### Committee Reports

#### *Membership and Subscription*

No. 2 (Feb.), p. 188.

#### *Non-Theatrical Equipment*

No. 1 (Jan.), p. 26. 16-Mm. spools; Reel capacities; Projector sprockets; Educational; Biological standards.

#### *Sound*

No. 1 (Jan.), p. 24. Standard frequency reference film.

#### *Standards and Nomenclature*

No. 1 (Jan.), p. 21. Current projects.

#### *Studio Lighting*

No. 1 (Jan.), p. 32. Current studio lighting methods.

### Densitometry

(See also *Sensitometry*.)

Note on the Use of an Automatic Recording Densitometer, C. N. Tuttle and M. E. Russell, No. 1 (Jan.), p. 99.

A Wide-Range, Linear-Scale Photoelectric Cell Densitometer, W. W. Lindsay, Jr., and W. V. Wolfe, No. 6 (June), p. 622.

**Development, Photographic**

A Developing Machine for Sensitometric Work, L. A. Jones, M. E. Russell, and H. R. Beacham, No. 1 (Jan.), p. 73.

The Influence of Sprocket Holes upon the Development of Adjacent Sound-Track Areas, J. G. Frayne and V. Pagliarulo, No. 3 (March), p. 235.

**Disk Recording**

A Record Word-Spotting Mechanism, R. H. Heacock, No. 1 (Jan.), p. 63.

Direct Recording and Reproducing Materials for Disk Recording, A. C. Keller, No. 4 (April), p. 411.

**Distortion**

The Influence of Sprocket Holes upon the Development of Adjacent Sound-Track Areas, J. G. Frayne and V. Pagliarulo, No. 3 (March), p. 235.

**Educational**

(See also *Committee Reports, Non-Theatrical Equipment; and Sixteen-Millimeter Equipment.*)

The Use of Visual Equipment in Elementary and Secondary Schools, C. M. Koon, No. 3 (March), p. 284.

Organization and Work of the Film Library of the Museum of Modern Art, J. E. Abbott, No. 3 (March), p. 294.

**Electron Tubes**

A Demonstration Triode for Visualizing Electronic Phenomena, F. E. Eldredge and H. F. Dart, No. 3 (March), p. 318.

**Emulsions**

New Method for the Dry Hypersensitization of Photographic Emulsions, F. Dersch and H. Dürr, No. 2 (Feb.), p. 178.

**Film**

The Manufacture of Motion Picture Film, E. K. Carver, No. 6 (June), p. 504.

**General**

The Development of the Art and Science of Photography in the Twentieth Century, C. E. K. Mees, No. 1 (Jan.), p. 3.

Slide-Rule Sketches of Hollywood, H. G. Tasker, No. 2 (Feb.), p. 158.

Medical Motion Pictures in Color, R. P. Schwartz and H. B. Tuttle, No. 2 (Feb.), p. 173.

Report of the Membership and Subscription Committee, No. 2 (Feb.), p. 138.

The Schwarzkopf Method of Identifying Criminals, J. Frank, Jr., No. 2 (Feb.), p. 212.

The Use of Visual Equipment in Elementary and Secondary Schools, C. M. Koon, No. 3 (March), p. 284.

Organization and Work of the Film Library of the Museum of Modern Art, J. E. Abbott, No. 3 (March), p. 294.

A Demonstration Triode for Visualizing Electronic Phenomena, F. E. Eldredge and H. F. Dart, No. 3 (March), p. 318.

- A Review of the Quest for Constant Speed, E. W. Kellogg, No. 4 (April), p. 337.  
The Analysis and Specification of Color, K. S. Gibson, No. 4 (April), p. 388.  
The Manufacture of Motion Picture Film, E. K. Carver, No. 6 (June), p. 594.  
Soft X-Ray Motion Pictures of Small Biological Specimens, H. F. Sherwood,  
No. 6 (June), p. 614.  
Panoramic Motion Pictures, C. J. Posey, No. 6 (June), p. 619.

### **Generators**

- Three-Wire D-C. Supply for Projection Arcs, C. C. Dash, No. 4 (April), p. 427.

### **Glow Lamps**

- New Recording Equipment, D. Canady, No. 3 (March), p. 309.

### **Historical**

- The Development of the Art and Science of Photography in the Twentieth Century, C. E. K. Mees, No. 1 (Jan.), p. 3.  
A Review of the Quest for Constant Speed, E. W. Kellogg, No. 4 (April), p. 337.

### **Hypersensitization**

- New Method for the Dry Hypersensitization of Photographic Emulsions, F. Dersch and H. Dürr, No. 2 (Feb.), p. 178.

### **Illumination, Studio and Photographic**

(See also *Committee Reports, Studio Lighting.*)

- Mercury Arcs of Increased Brightness and Efficiency, L. J. Buttolph, No. 1 (Jan.), p. 43.  
Recent Developments in High-Intensity Arc Spotlamps for Motion Picture Production, E. C. Richardson, No. 2 (Feb.), p. 206.

### **Index**

- Author, January-June, 1937, No. 6 (June), p. 667.  
Classified, January-June, 1937, No. 6 (June), p. 670.

### **Lighting**

(See also *Committee Reports, Studio Lighting; and Illumination, Studio and Photographic.*)

### **Literature, Current Motion Picture**

- Current Literature, No. 6 (June), p. 653.

### **Loud Speakers**

- Modern Theater Loud Speakers and Their Development, C. Flannagan, R. Wolf, and W. C. Jones, No. 3 (March), p. 246.

### **Magnetic Recording**

- Recent Developments in Magnetic Sound Recording, S. J. Begun, No. 5 (May), p. 464.

**Make-Up**

Standardization of Motion Picture Make-Up, M. Factor, No. 1 (Jan.), p. 52.

**Manufacture of Motion Picture Film**

The Manufacture of Motion Picture Film, E. K. Carver, No. 6 (June), p. 594.

**Medical Cinematography**

Medical Motion Pictures in Color, R. P. Schwartz and H. B. Tuttle, No. 2 (Feb.), p. 173.

**Membership***New Members:*

No. 2 (Feb.), p. 229.

No. 3 (March), p. 333.

No. 4 (April), p. 442.

No. 5 (May), p. 665.

**Microphones**

Microphone Mixers, M. Rettinger, No. 6 (June), p. 604.

**Mixing**

Microphone Mixers, M. Rettinger, No. 6 (June), p. 604.

**Motor-Generators**

Three-Wire D-C. Supply for Projection Arcs, C. C. Dash, No. 4 (April), p. 427.

**Non-Theatrical**

(See also *Committee Reports, Non-Theatrical Equipment; Sixteen-Millimeter Equipment; and Educational*)

Medical Motion Pictures in Color, R. P. Schwartz and H. B. Tuttle, No. 2 (Feb.), p. 173.

The Schwarzkopf Method of Identifying Criminals, J. Frank, Jr., No. 2 (Feb.), p. 212.

The Use of Visual Equipment in Elementary and Secondary Schools, C. M. Koon, No. 3 (March), p. 284.

Organization and Work of the Film Library of the Museum of Modern Art, J. E. Abbott, No. 3 (March), p. 294.

**Obituary**

Max Mayer, No. 4 (April), p. 443.

J. P. Skelly, No. 4 (April), p. 443.

Rudolph Miebling, No. 5 (May), p. 581.

**Officers and Governors of the Society**

On the reverse of the Contents page of each issue of the JOURNAL.

*Photographs*, No. 5 (May), p. 538.

**Optical Reduction**

Some Data Regarding Dimensions of the Picture Image in 16-Mm. Reduction Printing, G. Friedl, Jr., No. 6 (June), p. 585.

**Optics**

Effect of Light-Source Size with 16-Mm. Optical Systems, G. Mili, No. 2 (Feb.), p. 164.

The Effect of Aberrations upon Image Quality, W. B. Rayton and A. A. Cook, No. 4 (April), p. 377.

**Oscilloscope**

A Neon-Tube Oscilloscope for the Projection Room, F. H. Richardson and T. P. Hover, No. 3 (March), p. 304.

**Panoramic Pictures**

Panoramic Motion Pictures, C. J. Posey, No. 6 (June), p. 619.

**Perforations**

The Influence of Sprocket Holes upon the Development of Adjacent Sound-Track Areas, J. G. Frayne and V. Pagliarulo, No. 3 (March), p. 235.

**Photography**

The Development of the Art and Science of Photography in the Twentieth Century, C. E. K. Mees, No. 1 (Jan.), p. 3

Standardization of Motion Picture Make-Up, M. Factor, No. 1 (Jan.), p. 52.

**Printing**

Some Data Regarding Dimensions of the Picture Image in 16-Mm. Reduction Printing, G. Friedl, Jr., No. 6 (June), p. 585.

**Process Cinematography**

Trick and Process Cinematography, J. A. Norling, No. 2 (Feb.), p. 136.

**Progress**

The Development of the Art and Science of Photography in the Twentieth Century, C. E. K. Mees, No. 1 (Jan.), p. 3.

Modern Theater Loud Speakers and Their Development, C. Flannagan, R. Wolf, and W. C. Jones, No. 3 (March), p. 246.

**Projection, General Information**

A Neon-Tube Oscilloscope for the Projection Room, F. H. Richardson and T. P. Hover, No. 3 (March), p. 304.

A New Reel-End Alarm, D. Canady and V. A. Welman, No. 3 (March), p. 314.

Three-Wire D-C. Supply for Projection Arcs, C. C. Dash, No. 4 (April), p. 427.

The Projection of Lenticular Color-Films, J. G. Capstaff, O. E. Miller, and L. S. Wilder, No. 2 (Feb.), p. 123.

**Re-Recording**

A Single-Channel Recording and Re-Recording System, H. I. Reiskind, No. 5 (May), p. 498.

The RCA Sound Recording System, M. C. Batsel and E. W. Kellogg, No. 5 (May), p. 507.

**Sensitivity, Photographic**

New Method for the Dry Hypersensitization of Photographic Emulsions, F. Dersch and H. Dürr, No. 2 (Feb.), p. 178.

**Sensitometry**

(See also *Densitometry*.)

A Developing Machine for Sensitometric Work, L. A. Jones, M. E. Russell, and H. R. Beacham, No. 1 (Jan.), p. 73.

A Wide-Range, Linear-Scale Photoelectric Cell Densitometer, W. W. Lindsay, Jr., and W. V. Wolfe, No. 6 (June), p. 662.

**Sixteen-Millimeter Equipment**

(See also *Committee Reports, Non-Theatrical Equipment; and Educational*.)

Effect of Light-Source Size with 16-Mm. Optical Systems, G. Mili, No. 2 (Feb.), p. 164.

Some Data Regarding Dimensions of the Picture Image in 16-Mm. Reduction Printing, G. Friedl, Jr., No. 6 (June), p. 585.

**Sound Committee**

(See *Committee Reports, Sound*.)

**Sound Recording, Disk**

New Recording Equipment, D. Canady, No. 3 (March), p. 309.

A Record Word-Spotting Mechanism, R. H. Heacock, No. 1 (Jan.), p. 63.

Direct Recording and Reproducing Materials for Disk Recording, A. C. Keller, No. 4 (April), p. 411.

**Sound Recording, General Information**

A Review of the Quest for Constant Speed, E. W. Kellogg, No. 4 (April), p. 337.  
Recent Developments in Magnetic Sound Recording, S. J. Begun, No. 5 (May), p. 464.

A Single-Channel Recording and Re-Recording System, H. I. Reiskind, No. 5 (May), p. 498.

The RCA Sound Recording System, M. C. Batsel and E. W. Kellogg, No. 5 (May), p. 507.

A Neon Type Volume Indicator, S. Read, Jr., No. 6 (June), p. 633.

**Sound Recording, Magnetic**

Recent Developments in Magnetic Sound Recording, S. J. Begun, No. 5 (May), p. 464.

**Sound Recording, Portable**

A New High-Quality Portable Film-Recording System, F. L. Hopper, E. C. Manderfeld, and R. R. Scoville, No. 2 (Feb.), p. 191.

**Sound Recording, Variable-Width Method**

A New High-Quality Portable Film-Recording System, F. L. Hopper, E. C. Manderfeld, and R. R. Scoville, No. 2 (Feb.), p. 191.

**Sound Reproduction, General Information**

A Record Word-Spotting Mechanism, R. H. Heacock, No. 1 (Jan.), p. 63.

A New High-Quality Portable Film-Recording System, F. L. Hopper, E. C. Manderfeld, and R. R. Scoville, No. 2 (Feb.), p. 191.

A New High-Quality Film Reproducer, J. C. Davidson, No. 2 (Feb.), p. 202.

Modern Theater Loud Speakers and Their Development, C. Flannagan, R. Wolf, and W. C. Jones, No. 3 (March), p. 246.

A Review of the Quest for Constant Speed, E. W. Kellogg, No. 4 (April), p. 337.  
Recent Developments in Magnetic Sound Recording, S. J. Begun, No. 5 (May), p. 464.

Microphone Mixers, M. Rettinger, No. 6 (June), p. 604.

Reproducing Equipment for Motion Picture Theaters, M. C. Batsel and C. N. Reifsteck, No. 6 (June), p. 643.

### **Sound Reproduction, Variable-Density Method**

A New High-Quality Film Reproducer, J. C. Davidson, No. 2 (Feb.), p. 202.

### **Standardization**

(See also *Committee Reports, Standards and Nomenclature.*)

Report of the Sound Committee, No. 1 (Jan.), p. 24.

Report of the Committee on Non-Theatrical Equipment, No. 1 (Jan.), p. 26.

Standardization of Motion Picture Make-Up, M. Factor, No. 1 (Jan.), p. 52.

Research Council Specifications for a Standard Synchronizing System for Cameras, No. 3 (March), p. 265.

Some Data Regarding Dimensions of the Picture Image in 16-Mm. Reduction Printing, G. Friedl, Jr., No. 6 (June), p. 585.

### **Stereoscopy**

A Third-Dimensional Effect in Animated Cartoons, J. E. Burks, No. 1 (Jan.), p. 39.

### **Synchronization**

Research Council Specifications for a Standard Synchronizing System for Cameras, No. 3 (March), p. 265.

### **Television**

Iconoscopes and Kinescopes in Television, V. K. Zworykin, No. 5 (May), p. 473.

### **Theater Equipment**

Reproducing Equipment for Motion Picture Theaters, M. C. Batsel and C. N. Reifsteck, No. 6 (June), p. 643.

### **Trick Photography**

A Third-Dimensional Effect in Animated Cartoons, J. E. Burks, No. 1 (Jan.), p. 39.

Trick and Process Cinematography, J. A. Norling, No. 2 (Feb.), p. 136.

### **X-Ray Cinematography**

Soft X-Ray Motion Pictures of Small Biological Specimens, H. F. Sherwood, No. 6 (June), p. 614.
