

SOCIETY ANNOUNCEMENTS

BOARD OF GOVERNORS

At a meeting held at the Hotel Pennsylvania, New York, N. Y., on July 9th, nominations of officers for 1938 were completed by the Board of Governors. Announcement of the nominees will be made as soon as all the acceptances have been received. Ballots will be mailed to the voting membership on or about September 2nd, and the results of the election will be announced at the Fall Convention on October 11th. The officers-elect will assume office on January 1st.

The report of finances submitted by Mr. O. M. Glunt, *Financial Vice-President*, indicated that although conditions were satisfactory, quite a number of members have not yet paid their 1937 dues. A third dues notice is being mailed to each delinquent member at the time this issue goes to press, and all who have not paid their dues so far are urged to do so immediately.

Committees and other details relating to the approaching Fall Convention, as described in the preceding section of this issue of the JOURNAL, were announced by Mr. W. C. Kunzmann, *Convention Vice-President*, and arrangements are being made to gather an interesting selection of technical papers and presentations under the direction of Mr. J. I. Crabtree, *Editorial Vice-President*.

SMPE TEST-FILMS

A new negative has just been completed for the 35-mm. sound test-film, recorded by the ultraviolet-light system. The contents of the film are identical with those of the preceding negative, except that new and more appropriate musical selections and voices have been chosen. The test-film was originally described in the August, 1933, issue of the JOURNAL, p. 89. Some details of the contents of the films are given in the advertisement on a following page.

In addition, a 16-mm. sound test-film has been prepared, the contents being identical with those of the 35-mm. sound test-film, except that the frequency range and the series of fixed frequencies extend to 6000 cycles instead of to 10,000.

The complete set of test-films available at the prices stated is as follows:

(1) 35-mm. sound test-film	\$37.50
(2) 35-mm. visual test-film	37.50
(3) 16-mm. sound test-film	25.00
(4) 16-mm. visual test-film (optical reduction of the 35-mm. visual test-film)	25.00
