

## CLASSIFIED INDEX, VOLUME 45

JULY-DECEMBER, 1945

### Academy of Motion Picture Arts and Sciences

(See also *Research Council*)

The Motion Picture and International Enlightenment, W. F. Wanger, No. 2 (Aug.), p. 76.

### Acoustics

Reverberation Chambers for Rerecording, M. Rettinger, No. 5 (Nov.), p. 350.

### American Standards Association

Progress Report of the Work of the ASA War Committee on Photography and Cinematography, Z52, J. W. McNair, No. 1 (July), p. 33.

### Apparatus

A 16-Mm Edge-Numbering Machine, L. Thompson, No. 2 (Aug.), p. 109.

Problems of Theater Television Projection Equipment, A. H. Rosenthal, No. 3 (Sept.), p. 218

An Optical Cueing Device for Disk Playback, G. C. Misener, No. 4 (Oct.), p. 297.

Development of Two Automatic Follow-Focus Devices for Use in Cinematography, J. T. Strohm and W. G. Heckler, No. 4 (Oct.), p. 302.

A Multisection Rerecording Equalizer, W. L. Thayer, No. 5 (Nov.), p. 333.

Continuous Flash Lighting—An Improved High-Intensity Light Source for High-Speed Motion Picture Photography, H. M. Lester, No. 5 (Nov.), p. 358.

Automatic Recording of Photographic Densities, J. G. Frayne and G. R. Crane No. 5 (Nov.), p. 370

Power Rectifiers for Studio Lighting, L. A. Umansky, No. 6 (Dec.), p. 414.

A Small Microphone Boom, B. F. Ryan and E. H. Smith, No. 6 (Dec.), p. 441.

A Positive Vari-Focal View-Finder for Motion Picture Cameras, F. G. Back, No. 6 (Dec.), p. 466.

### Arcs

Method for Measurement of Brightness of Carbon Arcs, M. T. Jones, R. J. Zavesky, and W. W. Lozier, No. 1 (July) p. 10.

An Automatic High-Pressure Mercury Arc Lamp Control Circuit, L. F. Bird, No. 1 (July), p. 38.

Study of Radiant Energy at Motion Picture Film Aperture, R. J. Zavesky, M. R. Null, and W. W. Lozier, No. 2 (Aug.), p. 102.

Studio Lighting Committee, Report of: (Operation and maintenance of studio lighting equipment, both carbon arc and incandescent)—No. 4 (Oct.), p. 249.

A New Carbon for Increased Light in Studio and Theater Projection, M. T. Jones, R. J. Zavesky, and W. W. Lozier, No. 6 (Dec.), p. 449.

**Atlantic Coast Section (See *SMPE Activities and Announcements*)****Cameras**

- The Calculation of Accelerations in Cam-Operated Pull-Down Mechanisms, E. W. Kellogg, No. 2 (Aug.), p. 143.
- Development of Two Automatic Follow-Focus Devices for Use in Cinematography, J. T. Strohm and W. G. Heckler, No. 4 (Oct.), p. 302.
- A Positive Vari-Focal View-Finder for Motion Picture Cameras, F. G. Back, No. 6 (Dec.), p. 466.

**Cinematography**

- Development of Two Automatic Follow-Focus Devices for Use in Cinematography, J. T. Strohm and W. G. Heckler, No. 4 (Oct.), p. 302.
- Practical Utilization of Monopack Film, C. G. Clarke, No. 5 (Nov.), p. 327.
- A Positive Vari-Focal View-Finder for Motion Picture Cameras, F. G. Back, No. 6 (Dec.), p. 466.

**Cinematography, High-Speed**

- 8000 Pictures Per Second, H. J. Smith, No. 3 (Sept.), p. 171
- Continuous Flash Lighting—An Improved High-Intensity Light Source for High-Speed Motion Picture Photography, H. M. Lester, No. 5 (Nov.), p. 358.

**Color**

- Some Notes on the Duplication of 16-Mm Integral Tripack Color Film, W. H. Offenhauser, Jr., No. 2 (Aug.), p. 113.
- Machine Processing of 16-Mm Ansco Color Film, J. L. Forrest, No. 5 (Nov.), p. 313.
- Practical Utilization of Monopack Film, C. G. Clarke, No. 5 (Nov.), p. 327.
- Color, Report of Committee on: (Discussion of new high sensitivity caesium-antimony phototubes)—No. 6 (Dec.), p. 397.

**Committee Activities and Reports**

- Color Committee:* (Discussion of new high sensitivity caesium-antimony phototubes)—No. 6 (Dec.), p. 397.
- Papers Committee:* The Presentation of Technical Developments Before Professional Societies, W. L. Everitt, No. 3 (Sept.), p. 184.
- Projector Sprocket Design, Subcommittee on:* (Results of tests on large-size projector sprockets)—No. 2 (Aug.), p. 73.
- Screen Brightness, Subcommittee on:* (Projects under study)—No. 4 (Oct.), p. 262.
- Standards Committee:* (Projects under study)—No. 4 (Oct.), p. 261.
- Theater Engineering, Construction, and Operation, Subcommittee on:* (Formation of subcommittee to study various subjects relating to theaters; outline of project on theater carpets; study of theater building codes)—No. 4 (Oct.), p. 262.

**Cueing Aids**

- An Optical Cueing Device for Disk Playback, G. C. Misener, No. 4 (Oct.), p. 297.

**Current Literature**

No. 1 (July), p. 65; No. 3 (Sept.), p. 241; No. 4 (Oct.), p. 310.

**Densitometry**

Automatic Recording of Photographic Densities, J. G. Frayne and G. R. Crane, No. 5 (Nov.), p. 370.

**Developing** (See *Processing*)**Distribution**

Technical Problems of Interpretation in Producing Foreign-Version Films, T. Y. Lo, No. 3 (Sept.), p. 203.

**Edge Damage** (See *Film Wear*)**Edge-Numbering** (See *Editing*)**Editing**

A 16-Mm Edge-Numbering Machine, L. Thompson, No. 2 (Aug.), p. 109.

**Electronic Tubes**

Color, Report of Committee on: (Discussion of new high sensitivity caesium-antimony phototubes)—No. 6 (Dec.), p. 397.

**Federal Communications Commission** (See *Television*)**Fellow Membership Awards** (See *SMPE Activities and Announcements*)**Film, Distortion**

Some Relationships Between the Physical Properties and the Behavior of Motion Picture Film, R. H. Talbot, No. 3 (Sept.), p. 209.

**Film, Fine-Grain**

Comparison of Variable-Area Sound Recording Films, D. O'Dea, No. 1 (July), p. 1.

Two New Eastman Fine-Grain Sound Recording Films, R. M. Corbin, N. L. Simmons, and D. E. Hyndman, No. 4 (Oct.), p. 265.

Du Pont Fine-Grain Sound Films—Types 232 and 236, H. W. Moyse, No. 4 (Oct.), p. 285.

**Film, General**

A 16-Mm Edge-Numbering Machine, L. Thompson, No. 2 (Aug.), p. 109.

Some Relationship Between the Physical Properties and the Behavior of Motion Picture Film, R. H. Talbot, No. 3 (Sept.), p. 209.

Film—The Backbone of Television Programming, R. B. Austrian, No. 6 (Dec.), p. 401.

**Film Wear**

The Projection Life of Film, R. H. Talbot, No. 2 (Aug.), p. 78.

**Fixing Baths**

The Application of the Polarograph to the Analysis of Photographic Fixing Baths, V. C. Shaner and M. R. Sparks, No. 1 (July), p. 20.

**General**

- A New Medium for the Production of Vandykes, L. S. Trimble, No. 1 (July), p. 54.
- The Motion Picture and International Enlightenment, W. F. Wanger, No. 2 (Aug.), p. 76.
- The Presentation of Technical Developments Before Professional Societies, W. L. Everitt, No. 3 (Sept.), p. 184.
- Technical Problems of Interpretation in Producing Foreign-Version Films, T. Y. Lo, No. 3 (Sept.), p. 203.

**High-Speed Photography** (See *Cinematography, High Speed*)**Illumination**

- Method for Measurement of Brightness of Carbon Arcs, M. T. Jones, R. J. Zavesky, and W. W. Lozier, No. 1 (July), p. 10.
- An Automatic High-Pressure Mercury Arc Lamp Control Circuit, L. F. Bird, No. 1 (July), p. 38.
- Study of Radiant Energy at Motion Picture Film Aperture, R. J. Zavesky, M. R. Null, and W. W. Lozier, No. 2 (Aug.), p. 102.
- Efficiency of Picture Projection Systems, E. W. Kellogg, No. 3 (Sept.), p. 191.
- Studio Lighting Committee, Report of: (Operation and maintenance of studio lighting equipment, both carbon arc and incandescent)—No. 4 (Oct.), p. 249.
- Screen Brightness, Report of Subcommittee on: (Projects under study)—No. 4 (Oct.), p. 262.
- Continuous Flash Lighting—An Improved High-Intensity Light Source for High-Speed Motion Picture Photography, H. M. Lester, No. 5 (Nov.), p. 358.
- Power Rectifiers for Studio Lighting, L. A. Umansky, No. 6 (Dec.), p. 414.
- A New Carbon for Increased Light in Studio and Theater Projection, M. T. Jones, R. J. Zavesky, and W. W. Lozier, No. 6 (Dec.), p. 449.

**Incandescent Lamps**

- Studio Lighting Committee, Report of: (Operation and maintenance of studio lighting equipment, both carbon arc and incandescent)—No. 4 (Oct.), p. 249.

**Instruments**

- The Application of the Polarograph to the Analysis of Photographic Fixing Baths, V. C. Shaner and M. R. Sparks, No. 1 (July), p. 20.

**Journal Award** (See *SMPE Activities and Announcements*)**Laboratory Practice**

- Variable-Area Release from Variable-Density Original Sound Tracks, J. P. Livadary and S. J. Twining, No. 5 (Nov.), p. 380.
- A 16-Mm Edge-Numbering Machine, L. Thompson, No. 2 (Aug.), p. 109.

**Loudspeakers**

- An Improved Loudspeaker System for Theaters, J. B. Lansing and J. K. Hilliard, No. 5 (Nov.), p. 339.

**Mercury Arcs**

- An Automatic High-Pressure Mercury Arc Lamp Control Circuit, L. F. Bird, No. 1 (July), p. 38.

**Microphones**

Anecdotal History of Sound Recording Technique, W. A. Mueller and M. Rettinger, No. 1 (July), p. 48.

A Small Microphone Boom, B. F. Ryan and E. H. Smith, No. 6 (Dec.), p. 441.

**Obituary**

C. E. Shultz, No. 2 (Aug.), p. 159.

**Optics**

Efficiency of Picture Projection Systems, E. W. Kellogg, No. 3 (Sept.), p. 191.

**Pacific Coast Section (See *SMPE Activities and Announcements*)****Phototubes (See *Electronic Tubes*)****Process Photography**

Technical News, No. 2 (Aug.), p. 156.

A New Carbon for Increased Light in Studio and Theater Projection, M. T. Jones, R. J. Zavesky, and W. W. Lozier, No. 6 (Dec.), p. 449.

**Processing**

The Application of the Polarograph to the Analysis of Photographic Fixing Baths, V. C. Shaner and M. R. Sparks, No. 1 (July), p. 20.

Some Notes on the Duplication of 16-Mm Integral Tripack Color Films, W. H. Offenhauser, Jr., No. 2 (Aug.), p. 113.

Some Practical Aspects of the Intermodulation Test, E. Meschter, No. 3 (Sept.), p. 161.

Some Relationships Between the Physical Properties and the Behavior of Motion Picture Film, R. H. Talbot, No. 3 (Sept.), p. 209.

Machine Processing of 16-Mm Ansco Color Film, J. L. Forrest, No. 5 (Nov.), p. 313.

Variable-Area Release from Variable-Density Original Sound Tracks, J. P. Livadary and S. J. Twining, No. 5 (Nov.), p. 380.

A New Photographic Developer for Picture Negatives, J. R. Alburger, No. 6 (Dec.), p. 459.

**Production**

Technical Problems of Interpretation in Producing Foreign-Version Films, T. Y. Lo, No. 3 (Sept.), p. 203.

The U. S. Naval Photographic Services Depot, F. M. Hearon, No. 4 (Oct.), p. 294.

An Optical Cueing Device for Disk Playback, G. C. Misener, No. 4 (Oct.), p. 297.

Development of Two Automatic Follow-Focus Devices for Use in Cinematography, J. T. Strohm and W. G. Heckler, No. 4 (Oct.), p. 302.

Practical Utilization of Monopack Film, C. G. Clarke, No. 5 (Nov.), p. 327.

Power Rectifiers for Studio Lighting, L. A. Umansky, No. 6 (Dec.), p. 414.

A Small Microphone Boom, B. F. Ryan and E. H. Smith, No. 6 (Dec.), p. 441.

**Projection**

The Projection Life of Film, R. H. Talbot, No. 2 (Aug.), p. 78.

- Study of Radiant Energy at Motion Picture Film Aperture, R. J. Zavesky, M. R. Null, and W. W. Lozier, No. 2 (Aug.), p. 102.  
Efficiency of Picture Projection Systems, E. W. Kellogg, No. 3 (Sept.), p. 191.

### Projectors

- Projector Sprocket Design, Report of Subcommittee on: (Results of tests on large-size projector sprockets)—No. 2 (Aug.), p. 73.  
The Calculation of Accelerations in Cam-Operated Pull-Down Mechanisms, E. W. Kellogg, No. 2 (Aug.), p. 143.

### Pull-Down Mechanisms

- The Calculation of Accelerations in Cam-Operated Pull-Down Mechanisms, E. W. Kellogg, No. 2 (Aug.), p. 143.

### Rectifiers

- Power Rectifiers for Studio Lighting, L. A. Umansky, No. 6 (Dec.), p. 414.

### Rerecording (See *Sound Recording*)

### Research Council, Academy of Motion Picture Arts and Sciences

(See also *Academy of Motion Picture Arts and Sciences*)

- Preliminary Report of Academy Research Council Committee on Rerecording Methods for 16-Mm Release of 35-Mm Features, W. C. Miller, No. 2 (Aug.), p. 135.

### Screen Brightness (See *Illumination*)

### Sensitometry

- Automatic Recording of Photographic Densities, J. G. Frayne and G. R. Crane, No. 5 (Nov.), p. 370.

### Sixteen-Mm Motion Pictures

- A 16-Mm Edge-Numbering Machine, L. Thompson, No. 2 (Aug.), p. 109.  
Some Notes on the Duplication of 16-Mm Integral Tripack Color Films, W. H. Offenhauser, Jr., No. 2 (Aug.), p. 113.  
Preliminary Report of Academy Research Council Committee on Rerecording Methods for 16-Mm Release of 35-Mm Features, W. C. Miller, No. 2 (Aug.), p. 135.  
Some Practical Aspects of the Intermodulation Test, E. Meschter, No. 3 (Sept.), p. 161.  
Machine Processing of 16-Mm Ansco Color Film J. L. Forrest, No. 5 (Nov.), p. 313.

### SMPE Activities and Announcements

(See also *Committee Activities and Reports*)

- Amendments of By-Laws, No. 3 (Sept.), p. 246; No. 5 (Nov.), p. 389.  
Atlantic Coast Section:  
Meetings, May 23 and June 13—No. 1 (July), p. 67.  
Officers and Managers for 1946-47, No. 5 (Nov.), p. 390.  
Fellow Membership Awards: Announcement of 1945 elections, No. 5 (Nov.), p. 389.

- Fifty-Seventh Semi-Annual Technical Conference: Final Program, No. 1 (July), p. 67.
- The Motion Picture and International Enlightenment, W. F. Wanger, No. 2 (Aug.), p. 76.
- Fifty-Eighth Semi-Annual Technical Conference: Committees and Tentative Program, No. 3 (Sept.), p. 243.
- Final Program, No. 5 (Nov.), p. 391.
- Journal Award: Announcement of 1945 recipients, No. 5 (Nov.), p. 389.
- Members Lost Serving Their Country, To Compile List of, No. 6 (Dec.), p. 472.
- Officers, Governors, and Section Managers for 1946-47, No. 5 (Nov.), p. 390.
- Pacific Coast Section:
- Meeting, June 26—No. 2 (Aug.), p. 158; Meeting, September 25—No. 5 (Nov.), p. 390.
- Officers and Managers for 1946-47, No. 5 (Nov.), p. 390.

### Sound Effects

- Reverberation Chambers for Rerecording, M. Rettinger, No. 5 (Nov.), p. 350.

### Sound Recording

- Comparison of Variable-Area Sound Recording Films, D. O'Dea, No. 1 (July), p. 1.
- Anecdotal History of Sound Recording Technique, W. A. Mueller and M. Rettinger, No. 1 (July), p. 48.
- Preliminary Report of Academy Research Council Committee on Rerecording Methods for 16-Mm Release of 35-Mm Features, W. C. Miller, No. 2 (Aug.), p. 135.
- Some Practical Aspects of the Intermodulation Test, E. Meschter, No. 3 (Sept.), p. 161.
- Two New Eastman Fine-Grain Sound Recording Films, R. M. Corbin, N. L. Simmons, and D. E. Hyndman, No. 4 (Oct.), p. 265.
- Du Pont Fine-Grain Sound Films—Types 232 and 236, H. W. Moyses, No. 4 (Oct.), p. 285.
- A Multisection Rerecording Equalizer, W. L. Thayer, No. 5 (Nov.), p. 333.
- Reverberation Chambers for Rerecording, M. Rettinger, No. 5 (Nov.), p. 350.
- Variable-Area Release from Variable-Density Original Sound Tracks, J. P. Livadary and S. J. Twining, No. 5 (Nov.), p. 380.
- Color, Report of Committee on: (Discussion of new high sensitivity caesium-antimony phototubes)—No. 6 (Dec.), p. 397.

### Sound Reproduction

- Some Practical Aspects of the Intermodulation Test, E. Meschter, No. 3 (Sept.), p. 161.
- An Improved Loudspeaker System for Theaters, J. B. Lansing and J. K. Hilliard, No. 5 (Nov.), p. 339.

### Standards

- Progress Report of the Work of the ASA War Committee on Photography and Cinematography, Z52, J. W. McNair, No. 1 (July), p. 33.
- Standards Committee, Report of: (Projects under study)—No. 4 (Oct.), p. 261.

**Technical News**

No. 2 (Aug.), p. 156.

**Television**

Frequency Allocations for Theater Television: Excerpts from Report by Federal Communications Commission on Proposed Allocations from 25,000 Kilocycles to 30,000,000 Kilocycles, No. 1 (July), p. 16.

Technical News, No. 2 (Aug.), p. 156.

Problems of Theater Television Projection Equipment, A. H. Rosenthal, No. 3 (Sept.), p. 218.

Film—The Backbone of Television Programming, R. B. Austrian, No. 6 (Dec.), p. 401.

**Test Films**

Preliminary Report of Academy Research Council Committee on Rerecording Methods for 16-Mm Release of 35-Mm Features, W. C. Miller, No. 2 (Aug.), p. 135.

**Theaters, General**

Theater Engineering, Construction, and Operation, Report of Subcommittee on: (Formation of subcommittee to study various subjects relating to theaters; outline of project on theater carpets; study of theater building codes)—No. 4 (Oct.), p. 262.

An Improved Loudspeaker System for Theaters, J. B. Lansing and J. K. Hilliard, No. 5 (Nov.), p. 339.

**Training Films**

The U. S. Naval Photographic Services Depot, F. M. Hearon, No. 4 (Oct.), p. 294.

**U. S. Navy (See *Training Films*)****War Committee on Photography and Cinematography, Z52**

Progress Report of the Work of the ASA War Committee on Photography and Cinematography, Z52, J. W. McNair, No. 1 (July), p. 33.

Preliminary Report of Academy Research Committee on Rerecording Methods for 16-Mm Release of 35-Mm Features, W. C. Miller, No. 2 (Aug.), p. 135.
