Send your order with remittance to the Society of Motion Picture Engineers, 342 Madison Avenue, New York 17, N. Y.

## 35-MM AND 16-MM TEST FILMS

—for the manufacturer—

As an important tool for the design engineer and as a performance standard in quality control and inspection.

—for the dealer and serviceman—

To demonstrate new projectors and sound reproducers as well as to adjust equipment in service or in the process of being repaired.

—for 16- and 35-mm exhibitors—

To insure peak performance for those who maintain their own equipment.

Twenty-nine different test films, both 16- and 35-mm are available for all purposes from the Society of Motion Picture Engineers and the Motion Picture Research Council. A catalog describing each in detail is available at no cost from the Society of Motion Picture Engineers, 342 Madison Avenue, New York 17, N. Y.
