Further information concerning the material described below can be obtained by writing direct to the manufacturers. As in the case of technical papers, publications of these news items does not constitute endorsement of the manufacturer's statements nor of his products.

Reeves Videon Projection Television has been announced by Century Projector Corp., 729 Seventh Ave., New York 19. Manufactured by the Reeves Soundcraft Corp., the installation consists of the optical barrel assembly, the driver unit, 20-w audio amplifier, remote control unit, screen, screen frame and speaker cabinet, with all connecting cables supplied.

Picture sizes range from 3×4 ft, where ambient light is moderate, up to 6×8 ft where theater darkness prevails. Remote tuning can be effected up to 100 ft from the screen. Two speakers and cabinets are used with the 6×8 ft screen.

The optics of the Videon-Schmitt lens barrel assembly (shown above) are reported engineered for minimum distortion and aberration, with the 14-in. reflector affording minimum loss in light value. The lens barrel can be suspended from the ceiling for front projection or mounted on a shelf for rear projection.

SMPTE Officers and Committees: The roster of Society Officers is given in this issue, pp. 635-37. The Committee Chairmen and Members were shown in the April *JOURNAL*, pp. 515-22; changes in this listing will be shown in the September *JOURNAL*.
