This 5000-w Featherlite, weighing only 21 lb, is among the spotlights and other new studio lighting equipment described in a brochure by Century Lighting, Inc., 521 W. 43d St., New York 36, N.Y. Other equipment is: aluminum barn doors, mechanical dimmers, light lifts, hangers and mike boom.

The Hy-Arc is a new carbon-arc projection lamp for indoor and medium-size drive-in theaters that has been announced by the Theatre Equipment Section, RCA Victor Division of Radio Corporation of America, Camden, N.J. Features of the lamp are: a system of magnetic stabiliza-

tion of the arc flame; water-cooled, non-rotating positive carbon; and a 15-in. high-speed reflector. The lamp's output is approximately 18,000 lm. It operates with a 9-mm  $\times$  20-in. high-intensity positive carbon and a  $\frac{1}{4}$ -in.  $\times$  9-in. negative carbon at currents from 70 to 90 amp.
