First three lines \$5.00

Each additional line \$1.00

per inch \$13.00

UNIFORM EXPOSURE NEEDS UNIFORM LINE VOLTAGE. DOES YOUR LINE VOLTAGE VARY? THEN THIS BARGAIN IS FOR YOU!

The U.S. Air Force required 115.0 V ± 1% despite line variations (transient or continuous) up to 30%, in either 110 V or 220 V, and either 50 or 60 cycle locations. So this SOLA Constant Voltage Transformer has all 4 inputs by choice of connections per instructions on etched plate. Output is ALWAYS 115.0 V ± 1% at 17.4 amps (2,000 VA). For smaller loads, input may vary much more than 30%, and output holds to 1%! Secondary is isolated from primary. No moving parts. No service or attention required. Self-protecting against overloads. Response time 1½ cycles, or less.

Because the Air Force dropped this project, you get this 4-input unit for \$147.50 less than the regular price of a single-input, 2,000 VA unit—plus the added bonus that you can, if you wish, use it as a step-down transformer!

Brand new, in original wood box.
4 cu. ft. Ship. wt. 234 lbs.
F.O.B. Pasco, Wash. \$97.50
