

Standards and Recommended Practices

Approved American National Standards

Two American National Standards were approved by the American National Standards Institute on December 3, 1990: ANSI/SMPTE 160M-1990, Motion-Picture Equipment (8-mm Type S) — Projection Reels — 100- to 312-mm Diameter; and ANSI/SMPTE 177-1990, Motion-Picture Film (35-mm) — Four-Track Magnetic Audio Release Prints — Magnetic Striping. Copies of the standards are available for a nominal fee from the American National Standards Institute, 1430 Broadway, New York, NY 10018.

Approved International Standard

The International Organization for Standardization (ISO) has approved an International Standard, the technical content of which is published here for your information. ISO 543:1990, Photography — Photographic Films — Specifications for Safety Film, is in general agreement with American National Standard for Motion-Picture Film — Safety Film, ANSI/SMPTE 223M-1985. This material is reproduced with permission from the ISO and is copyrighted by the American National Standards Institute, 1430 Broadway, New York, NY 10018, from which copies are available.

SMPTE Standards Subscription Service

The Society provides a Standards Subscription Service to assist firms, libraries, and individuals in establishing and maintaining a complete and current file of approved American National Standards, SMPTE Recommended Practices, and SMPTE Engineering Guidelines in the motion-picture, television, and video magnetic recording fields. Through this service, the Society makes automatic distribution to standards subscribers of all new and revised standards, recommended practices, and guidelines that are approved during the calendar year in these fields.

For further information, write to: Standards Subscription Service, Engineering Dept., Society of Motion Picture and Television Engineers, 595 West Hartsdale Ave., White Plains, NY 10607.
