SMPTE Monthly Engineering Meeting Schedule

SMPTE Engineering Committees meet to develop standards, practices, and engineering guidelines and to review existing documents to ensure that they are current with established engineering practices and are compatible with international standards. Membership is open to those who have affirmed in writing that they are directly and/or materially affected and willing and able to participate actively in the work.

The calendar below shows the dates and times of upcoming Engineering Committee meetings and the cities where they will held. Specific locations may not yet be determined.

Those requesting additional information on participation in these meetings should

contact the Engineering Dept. at SMPTE Headquarters, (914) 761-1100.

Committee Information

New Working Group Formed (P18.01)

A new Working Group on Headers and Descriptors (P18.01) under the direction of Branco Gerovac, Digital Equipment Corp., is preparing documentation to standardize and promote the use of Headers and Descriptors for the interchange of digital moving pictures. The Headers and Descriptors shall be defined so as to be applicable regardless of whether the images originated or are processed in video form or in computer systems.

For further information on the group please contact the Engineering Dept. at SMPTE Headquarters.
