VICE PRESIDENT, TECHNOLOGY

Warner Bros., an internationally recognized leader in filmed entertainment, has a challenging opportunity for a dynamic and accomplished professional to become part of our Management Team based in Southern California.

This highly effective team player will explore emerging technologies, interface with technological developers/suppliers and pursue new opportunities in electronic and filmed entertainment. This includes HDTV, digital compression, editing, duplication, telecine and film digitization, computerized animation, and electronic restoration.

We require a Bachelor's degree in Physics, Engineering, or Computer Science, and 7-10+ years in filmed entertainment, electronic imaging or related industry. This must include executive level experience. Knowledge of all aspects of technical engineering trends/technologies in the entertainment industry is a must. Master's degree and knowledge of physical distribution channels preferred.

As a division of Time Warner Filmed Entertainment, we offer an attractive compensation and complete benefits package. For consideration, please forward a resume with salary history to: Warner Bros., Human Resources Dept., Box 3, 4000 Warner Blvd., Burbank, CA 91522. EOE.
