SEEC - SMPTE Engineering Electronic Communications

SEEC, the SMPTE Engineering Electronic Communications system, is available as a private area on CompuServe, the international computer information network. SEEC offers users access via computer modems to calendars of SMPTE engineering meetings and other Society activities, a general Engineering Committee bulletin board, and to library and message sections devoted to individual Technology Committees and their subcommittees.

The Technology Committee libraries hold committee drafts of SMPTE Standards, Recommended Practices and Engineering Guidelines, and other items of interest to the Engineering Committees, which can be downloaded by the committee members. Comments on these drafts can then be uploaded to the corresponding Technology Committee message section, where the comments can be read by the members and considered for incorporation into succeeding drafts.

For more information on joining SEEC, contact the Engineering Department at SMPTE, 595 W. Hartsdale Ave., White Plains, NY 10607, (914) 761-1100, Fax: (914) 761-3115, or through CompuServe mail to 71362,22.
