## Committee Information

SMPTE Engineering Committees meet to develop standards, practices, and engineering guidelines and to review existing documents to ensure that they are current with established engineering practices and are compatible with international standards.

Membership is open to those who have affirmed in writing that they are directly and/or materially affected and are willing to participate actively in the work.

Individuals interested in contributing to committee work should contact the Engineering Dept. at SMPTE Headquarters, (914) 761-1100.

## Engineering Meeting Schedule

The adjacent calendar shows the dates of upcoming meetings and the cities where they will be held. Additional information on participation in these meetings is available from the Engineering Dept.

**COMPONENT VIDEO  
COMES TO LIFE...  
with Trompeter's  
RGB patching system.**

Patching of component video has never been easier when you use Trompeter's J25W RGB 75-ohm (.090 center pin) patching system.

- ▲ Compact two rack units high
- ▲ Triple patch cords with flexible triple coax cable for simultaneous patching of RGB signals
- ▲ Offset patch locations of RGB ports for proper patching
- ▲ Holds 24 Trompeter J25W jacks, with 12 component circuits on the panel
- ▲ Panel has jacks for 8 or 12 channels using 24 J25W triple straight jacks or 24 J24W normal through jacks
- ▲ Beryllium copper contacts

ISO 9001 Certified
