# Standards and Recommended Practices

## Proposed SMPTE Recommended Practices

Two Proposed SMPTE Practices are published here for a trial period and public review: RP 184, Specification of Jitter in Bit-Serial Digital Systems; and RP 192, Jitter Measurement Procedures in Bit-Serial Digital Interfaces. Comments should be addressed to Carlos V. Girod, Jr., Director of Engineering, at Society Headquarters prior to December 1, 1996. RP 184 is available from Headquarters for \$13.00 and RP 192 for \$18.00.

## Approved American National Standards

The American National Standards Institute recently approved four American National Standards: ANSI/SMPTE 86-1996, Motion-Picture Film — Magnetic Audio Records — Two, Three, Four and Six Records on 35-mm and One Record on 17.5-mm Magnetic Film;

ANSI/SMPTE 139-1996, Motion-Picture Film (35-mm) — Perforated KS; ANSI/SMPTE 201M-1996, Motion-Picture Film (16-mm) — Type W Camera Aperture Image; and ANSI/SMPTE 218M-1996, Motion-Picture Film (16-mm) — 200-Mil Center-Position Magnetic Audio Record. All the standards are available from Headquarters for \$10.00 each.

## Withdrawn American National Standard

Withdrawal of an American National Standard was approved by the American National Standards Institute: ANSI/SMPTE 182-1990, Motion-Picture Film (8-mm Type S) — Photographic Audio Record — Release Prints. Withdrawal action was initiated because the standard is no longer being used.

— *Carlos V. Girod, Jr., P.E., Director of Engineering*

## ***SMPTE Standards Subscription Service***

The Society provides a Standards Subscription Service to assist firms, libraries, and individuals in establishing and maintaining a complete and current file of approved American National Standards, SMPTE Recommended Practices, and SMPTE Engineering Guidelines in the motion picture, television, and video magnetic recording fields. Through this service, the Society makes automatic distribution to standards subscribers of all new and revised standards, recommended practices, and guidelines that are approved during the calendar year in these fields.

For further information, write to: Standards Subscription Service, Engineering Dept., Society of Motion Picture and Television Engineers, 595 West Hartsdale Ave., White Plains, NY 10607.
