Setting Standards Worldwide... SONY.

To be recognized worldwide, you have to continually set the standard, worldwide. And that's what Sony has consistently accomplished for decades. We've built a reputation for product and technological quality and reliability that is still the benchmark for other competitors, even today. Consider joining the team as a:

Manager of Field Engineering

Manage a technical staff of highly skilled Field Engineers throughout the western region. You'll take responsibility for developing alternative solutions, making recommendations and implementing processes which improve customer service in the field. Developing/managing a departmental budget and acting as a central point of contact for field engineers experiencing problems in solving technical customer service issues are additional efforts.

Ideal candidates will possess extensive experience in analog and digital business/professional television broadcasting production systems and equipment, especially in the areas of diagnosis and troubleshooting. A related Electronic Engineering degree or equivalent, 7+ years of experience managing a large force of Field Service Engineers and expertise in developing/managing budgets are essential.

Sony offers an excellent salary and benefits package. Please send resumes to Sony Electronics, Inc., Attn: HR Dept., 10833 Valley View Street, Cypress, CA 90630. EOE.
