

LOGOMOTION

Makes Every Frame Count.

LEITCH®

LogoMotion™ is the first logo generator to store and playback animated logos, opening up a new world of creative options for on-screen presentation.

LogoMotion combines a comprehensive range of features in a simple, easy-to-use package. New Flash technology allows static and animated logos to be instantly recorded from video.

LogoMotion can store dozens of logos, which can be positioned anywhere on screen, looped to other logo sequences, and automated to create stunning effects. LogoMotion's integral keyer allows transparency and fade rates to be controlled separately, giving you the flexibility to tailor the 'look' of your logo to the program material. The possibilities are endless!

LogoMotion is loaded with sophisticated features that can add life to any program.

Call Leitch today and find out how LogoMotion can make every frame count.
