

Network with a Newcomer

In his President's Message, David George focuses on the new practitioners, stating that as members, we should take a newcomer in the medium of the moving image to a local section meeting so that he or she can learn firsthand about SMPTE. "Being new to the game, they may not even be aware of SMPTE; that your Society is a prime provider of information and support; or that it offers a real opportunity to meet and network with other professionals in the field. But there is much

that newcomers to the arts and sciences of motion imaging can learn from us and our experience that can help them more quickly harness this new technological horsepower to their own wagons."

To accomplish this, shown below are the 28 SMPTE Section Chairs with their contact information. Be in touch with them. Find out when, where, and what will be discussed at the next local section meeting in your area. Mark your calendar, find that newcomer, and plan to attend the next meeting together.
