# New Products

## Camera Accessories

Telemetrics, Inc., announced its serially controlled **PT-LP camera pan/tilt mechanism**. The unit incorporates a serial control receiver and a power supply to facilitate remote studio operation of cameras with teleprompters. The product's pan/tilt mechanism's variable speed operation is provided by heavy-duty cross roller bearings and Swiss motors with isolation mounts. Additional features include positional feedback for short storage and recall, adjustable end stops, and a threaded base for easy tripod and ceiling mounting.

## Camera/Camcorder Equipment

Philips BTS has introduced the **LDK 100** series featuring the most advanced 12-bit A/D and 24-bit dynamic digital signal processing technology. The camera converts, via adaptors, to several different applications including Triax, DVCPRO camcorder, and Betacam SP configurations with additional configurations available in the future. The 100 Series operates in either 4:3 or 16:9 widescreen modes.

The **LDK 120**, also from Philips BTS, features the speed and power of two Intel inside processors. The camera includes a

host of intelligent automatics including an extended iris function that automatically controls gain, lens iris, and exposure time for a wide range of illumination levels. The 120 has a credit card sized Smart Card capable of storing up to four scene files and two operator files.

## Projectors

JVC and its subsidiaries, JVC Professional Product Co., and Hughes-JVC Technology Corp., have jointly announced the **DLA-G10 video/data/graphics projector**. The 26-pound, 9 x 17 x 15 in. DLA G10 is the first projector
