Raytheon

TV ENGINEER

Raytheon, a Fortune 100 company, is currently recruiting an experienced Television Engineer for an overseas assignment in Saudi Arabia to maintain and operate the Television Studio at the Royal Saudi Air Defense Forces Institute in Jeddah, Saudi Arabia.

In this position you will be responsible for the technical performance of the television studio and mobile van equipment as directed by the Studio Chief Engineer. Responsibilities also include providing formal and on-the-job training for TV section personnel and performing other related duties as requested by the Section Supervisor and Section Officer.

Interested candidates must have a Bachelor's Degree in Electrical Engineering with specialized courses in television maintenance. Five years' experience in troubleshooting and repairing broadcast television equipment including Ampex, Sony and Chyron is required. The qualified candidate will also have experience in graphic arts for television and be able to communicate effectively, both orally and in writing. Previous Middle East experience preferred.

The assignment includes a generous compensation package complete with competitive base salaries, overseas premiums, relocation benefits, medical/dental coverage, vacation travel allowances and furnished housing on a Western-style compound complete with full recreation facilities.

To be considered, please send your resume to: Department of Human Resources, P.O. Box 360, 50 Apple Hill Drive, Tewksbury, MA 01876 or fax to: 978/858-4301.

An Equal Opportunity Employer.
