QVC, Inc., the world leader in televised shopping, is currently seeking talented Broadcast Engineers to maintain our state-of-the-art digital broadcast facility at Studio Park (our corporate headquarters), the QVC Local (our remote broadcast operation) and Pioneer Studios (our post production facility).

Uplink (EIC) Engineers

Reporting to the Manager, Systems Support, the successful candidates will supervise technical operations for remote broadcasts (equipment set-up, maintenance and repair, uplink/downlink set-up and operation), as well as provide technical support to the live broadcast and post production facilities. Other responsibilities include: assisting with the set-up/breakdown of equipment; technical performance logging and systems maintenance; resolving complex technical problems including those related to graphics, computers, transmitters, switchers, receivers, cameras, & VTRs; and monitoring video and audio transmission quality. Position is based out of QVC's corporate headquarters, but travel is required 25% of the year. Requirements include: AS in Electronics or equivalent combination of training/experience; 5-7 years broadcast engineering experience; demonstrated knowledge of video and audio equipment and systems; component level troubleshooting background; TV systems design and installation experience; and competence in dealing quickly with critical problems that occur during live broadcast operations. SBE Broadcast Engineer certification or FCC general class license preferred. Experience with set-up and maintenance of Sony triax cameras, switchers, Betacam VTRs, audio equipment, PCs, modems, and cellular communication.

Maintenance Engineers

Reporting to the Manager, Systems Support, the successful candidate will be responsible for repairs of broadcast equipment including digital/analog beta decks, cameras, routers, and switchers. Requirements include: AS in Electronics or an equivalent combination of training/experience; demonstrated experience in broadcast engineering; ability to troubleshoot to the component level; detailed knowledge of non-linear editing systems; strong computer skills (PC, Mac, Windows NT, UNIX and LAN hardware and software). Camera robotics experience is a plus.

QVC offers a state-of-the-art environment, room for personal and professional growth, competitive salaries, and comprehensive benefits. Join the nation's #1 electronic retailer as we continue to change the way the world shops. Interested individuals may forward a resume to: QVC, Inc., Human Resources - AB/SMPTE/BE, 1200 Wilson Drive at Studio Park, West Chester, PA 19380. Fax: (610) 701-1150. Please specify position for which you are applying. Equal Opportunity Employer. Drug Free/Smoke Free Work Environment. Pre-employment drug screening required.
