SMPTE Journal Advertising is Coming in August!

Don't miss advertising in the August Issue!

Our tentative lineup includes articles on Multiformat HDTV Camera Heads, UMID Watermarking, Audio-to-Video Delay, and more! In addition to our informative monthly features...

Our August issue kicks off the 143rd Technical Conference Program lineup. And don't miss coverage in the September *Journal*, which will be distributed at the IBC Convention...

...and more!

Never Miss A Beat

Monitor Your System and Take Control

- ♥ *Windows®-based software provides customizable monitoring with real-time command and control*
- ♥ *Network and component topology management for the equipment on your network*
- ♥ *Centralized or distributed monitoring of equipment on your network*
- ♥ *Remote control of all CCS components with specific control parameters and alarm settings for each device*
- ♥ *Configurable alarm notification for CCS or SNMP devices on-screen, to a database, or by email.*
- ♥ *Secure access to network resources by user groups and individual settings.*

Monitoring your system is as vital as monitoring your health. After all, maintaining stable signals is essential to your livelihood.

So make an appointment with Pilot™, the foremost expert of our unprecedented Command Control System (CCS). Pilot is on duty 24 hours a day so you will stay informed, make sound decisions — react quickly.

Like having your own personal physician, Pilot will provide monitoring, diagnostics and control for devices on your network — ensuring that your system always maintains a clean bill of health.

With Pilot at the heart of your system, you'll never miss a beat.
