

**YOU CAN'T GO SWIMMING WITHOUT GETTING WET.
OR STORE INFORMATION WITHOUT TOUCHING OUR TECHNOLOGY.**

Know it or not, you depend on us every day. We've spent 20 years developing technology that has become the industry standard for storing, moving and using information. Four of the six top server companies put their names on storage systems we build. Our worldwide OEM relationships have made us interoperability experts. And that expertise is reflected in our own MetaStor® line of enterprise storage systems and software. The more heterogeneous your environment, the more reason you have to visit lsilogicstorage.com or to call 1-888-638-2786.

SMPTE
JOURNAL
A WINNER OF
2001
GOLD INK
AWARD

Advertise in the SMPTE Journal's 143rd Technical Conference Issue!

Our annual Technical Conference attracts attendees from around the world, and from almost every facet of the Motion Imaging industry.

Don't miss this opportunity to put your company's advertisement into every attendees hand at the Conference, and be seen by over 10,000 people who are at the center of Motion Imaging technology.

Prime space is going quickly, so hurry!

Ad space closes: October 1

Materials due: October 10
