Forthcoming Professional Meetings

The 10th International Television Symposium and Technical Exhibition of Montreux will be held 3-10 June 1977. The Symposium will include reports from experts on the latest trends and developments in television and numerous new TV engineering products will be on display. Highlights of the technical program will include a Round Table Discussion on Trends in Video Systems Under the Impact of the New Technology—1985 Horizon. Topics of other sessions will include: New Systems for Program Production; Terrestrial TV Broadcasting; Electronic TV Pickup and Film Scanning Techniques; Digital Techniques in Point-to-Point Transmission, Transmitters and New Services; Electronic Recording and Editing; Satellites for TV; and other relevant topics. Further information is available from International Television Symposium and Technical Exhibition, P.O. Box 97, CH-1820, Montreux, Switzerland.
