

Contributors to Voluntary Capital Funds Program

Published below is the first group of individuals and companies who have contributed to the Society's Voluntary Capital Funds Program. The Society here records their names with its thanks and appreciation for their willing response to its appeal.

Achievement of the goal of this special campaign — retirement of the mortgage on the Headquarters building in Scarsdale — will result in substantial savings in operating expenses and thus materially improve SMPTE's capacity to service its members.

Contributions listed here are those that had been received by March 31, 1976. As additional contributions come in, further listings of contributors' names will be published in subsequent issues of the Journal.
