CINE 60 SUN-GUN

Beautifully Simple

Beautiful . . . because it's fresnel-soft and uniform — ideal for video. And simple because . . . if 250 Watts is too much, change to 150 Watts. Need more? Go to 350 Watts. Want to go really light? Use 100 Watts (12V.). Outdoors, swing-in the built-on Daylight Filter. You color correct instantly! Indoors, swing away the Filter and you have tungsten light! Never a need to readjust camera color controls here! For focus, vary the beam from 8 to 14 Ft. For power, choose from 20 Sun-Gun Powerbelts and Powerpaks. And, to make it beautifully simple . . . we put it all together for you in any one of 17 Portable Sun-Gun Kits. See your dealer or send for data, today.
