Positions Available

Sales Engineer Broadcast Equipment. Diversity of responsibilities in selling. Knowledgeable in audio/video equipment layout; RF and Telco requirements. Should be able to work with a minimum of supervision and cover a midwestern territory of 10 states. Overnight travel required. A technical degree is prerequisite. In return, we offer a competitive starting salary, commission, car allowance, expense account, medical and insurance benefits. If you are interested in a career, not just a job, please contact Bob Griffiths, Vice President-Sales, Telemet, 185 Dixon Ave., Amityville, NY 11701 (516) 842-2300 or (914) 279-3231.

V.T.R. Bench Technician. Must have knowledge of small format, helical systems (repair and alignment). Minimum 1 year experience (digital logic systems knowledge helpful). Salary commensurate with experience. Full benefits program. Send resume or call: Personnel, Columbia Pictures Videocassette Services, 1501 Landmeier Road, Elk Grove Village, IL 60007 (312) 640-2350.

TV Engineer. Part time or freelance to work with established corporate television department in operation and maintenance of high quality cameras and type B tape equipment. Must be able to provide superior finished product. Production skills desirable. Both studio and field work with some travel required. Position could lead to permanent, full time employment. Contact: Kenneth Herr, Chief Engineer, Television Air Products and Chemicals, Inc., P.O. Box 538, Allentown, PA 18105. (215) 398-8800.

Assistant Supervisor, Motion Picture Preservation Laboratory, GS-12, (\$24,703-\$32,110) The Library of Congress is seeking qualified individuals to consider for a position in a nitrate to safety base conversion operation in its Motion Picture Laboratory. The incumbent provides immediate supervision of timers and is responsible for equipment operation and techniques used in timing. Minimum qualifications: A bachelor's degree in chemistry or chemical engineering (three years of general related experience in film processing may substitute for the degree) PLUS three years of specialized experience which includes one year at the GS-11 level in the Federal Service or at a comparable level of difficulty outside the Federal Service. Must have knowledge of slow speed printing equipment and the associated processing control needed to complement the prints made. Requires ability to supervise a staff in timing operations. Interested individuals are invited to submit a Standard Form 171 Government application to: The Library of Congress, Recruitment and Placement Office, (09950), Attn: Susan Kames, 10 First St., S.E., Room G-106B, Washington, D.C. 20540. Civil Service Status Not Required. An Equal Opportunity Employer.

Design Engineer. Public Broadcasting Service located in Washington, DC has an immediate opening for a Design Engineer. BS EE or equivalent with a minimum of 3 years experience in the design of television broadcasting audio-visual control system, knowledge of computer technology systems in particular microprocessor technology is desirable. Duties will include detailed design of state-of-the-art television equipment, including preparation of engineering specifications and supervisory responsibilities for fabrication and checkout. We offer competitive starting salaries and excellent non-contributory benefits package. **Communications System Engineer.** BS EE or equivalent with 5 years experience in satellite and related communications system design engineering. Duties include system level design of communications satellite ground terminal systems and subsystems and design of LOS microwave systems. Ability to develop and supervise engineering evaluation tests programs and prepare reports on systems specifications and economic trade-off studies. We offer competitive starting salaries and excellent non-contributory benefits package. **Earth Station Engineer.** BS EE or equivalent with 5 years experience in satellite communications engineering with particular emphasis on transmission measurement and fault analysis. Knowledge of satellite communications systems, subsystems, associated test equipment and test techniques required. Full understanding of video-audio and message transmission techniques essential. Candidates selected will provide analysis, design and integration of workable solutions to equipment problems aimed at improving serviceability of the satellite interconnection. We offer competitive starting salary and excellent non-contributory benefits. Interested individuals should submit resume, salary requirements and names of 3 references to Carole Dickert-Scherr/Director, Personnel/Public Broadcasting Service, 475 L'Enfant Plaza West, SW, Washington, DC 20024.
