NEW BRIDGE CENTER, KINGSTON, PA 18104

# 10

That's how many years we've been in Broadcast Engineering and technical sales recruiting. 3 times longer than our nearest competitor. We place people nationwide with stations, Dealers, and Manufacturers. No fee to candidates; Our client companies pay all fees. All contacts are made discreetly and professionally with long standing contacts in the industry. Your present situation will never be jeopardized. And for good reason; after 10 years we have a reputation to maintain.

So if you're a candidate or a company, and you're looking for a 10 (instead of a 3)—next time call us.

### Positions Available

**Sales Engineer Broadcast Equipment.** Diversity of responsibilities in selling. Knowledgeable in audio/video equipment layout: RF and Telco requirements. Should be able to work with a minimum of supervision and cover a midwestern territory of 10 states. Overnight travel required. A technical degree is prerequisite. In return, we offer a competitive starting salary, commission, car allowance, expense account, medical and insurance benefits. If you are interested in a career, not just a job, please contact Bob Griffiths, Vice President-Sales, Telemet, 185 Dixon Ave., Amityville, NY 11701 (516) 842-2300 or (914) 279-3231.

**TV Engineer.** Part time or freelance to work with established corporate television department in operation and maintenance of high quality cameras and type B tape equipment. Must be able to provide superior finished product. Production skills desirable. Both studio and field work with some travel required. Position could lead to permanent, full time employment. Contact: Kenneth Herr, Chief Engineer, Television Air Products and Chemicals, Inc., P.O. Box 538, Allentown, PA 18105. (215) 398-8800.

**Professional Motion Picture Projector Technicians.** Alan Gordon Enterprises needs technicians experienced in the repair of professional motion picture projectors, primarily 16mm, and some 35mm. For qualified applicants Alan Gordon Enterprises offers pleasant working conditions and atmosphere in the North Hollywood area. Salary commensurate with experience. For further information please contact Bob Kuhagen at (213) 985-5500.

**Videotape Editor.** Small, 'family-type' studio in Burbank, California seeks editor who understands and appreciates film and videotape post-production techniques. Technical background required; maintenance abilities a plus. Must interface well with clients. Great benefits. Flexible hours. Salary commensurate with qualifications. Send resume to: William Carlquist, Horizontal Editing Studios, 2625 W. Olive Ave., Burbank, CA 91505.

**Television Broadcast Operating and Maintenance Engineer.** Applicant should have 2-5 years of recent experience in maintaining current state-of-the-art television broadcast equipment; formal electronics training on the college level or an associate's degree in electronics. Applicants must possess a valid FCC First Class Radio Telephone License. Salary range \$13,000 to \$21,000. Benefits. Resumes with salary history should be submitted to Tom Weems, Director of Engineering, WTVH, 980 James Street, Syracuse, NY 13203. Equal Employment/Affirmative Action Program.

**Design Engineer.** Public Broadcasting Service located in Washington, DC has an immediate opening for a Design Engineer. BS EE or equivalent with a minimum of 3 years experience in the design of television broadcasting audio-visual control system, knowledge of computer technology systems in particular microprocessor technology is desirable. Duties will include detailed design of state-of-the-art television equipment, including preparation of engineering specifications and supervisory responsibilities for fabrication and checkout. We offer competitive starting salaries and excellent non-contributory benefits package. **Communications System Engineer.** BS EE or equivalent with 5 years experience in satellite and related communications system design engineering. Duties include system level design of communications satellite ground terminal systems and subsystems and design of LOS microwave systems. Ability to develop and supervise engineering evaluation tests programs and prepare reports on systems specifications and economic trade-off studies. We offer competitive starting salaries and excellent non-contributory benefits package. **Earth Station Engineer.** BS EE or equivalent with 5 years experience in satellite communications engineering with particular emphasis on transmission measurement and fault analysis. Knowledge of satellite communications systems, subsystems, associated test equipment and test techniques required. Full understanding of video-audio and message transmission techniques essential. Candidates selected will provide analysis, design and integration of workable solutions to equipment problems aimed at improving serviceability of the satellite interconnection. We offer competitive starting salary and excellent non-contributory benefits. Interested individuals should submit resume, salary requirements and names of 3 references to Carole Dickert-Scherr/Director, Personnel/Public Broadcasting Service, 475 L'Enfant Plaza West, SW, Washington, DC 20024.

**AudioVisual Facilities Engineer.** Top A/V engineering consulting firm seeks mature self-starter to design and specify audiovisual systems for corporate board, meeting, training rooms, auditoriums, etc. The person we want must have: minimum 5 years technical experience in A/V systems engineering; some "hands-on" experience in control circuitry and audio systems; impressive list of A/V systems credits. We are looking for a pro and realize that practical experience and proven ability may be more important than a degree. Salary is competitive and commensurate with length of experience. Full range of benefits. No telephone calls, please. Send resume with salary history in confidence to: Edwin F. Hodder, V.P., Hubert Wilke, Inc., 260 Madison Ave., New York, NY 10016. Principals Only—No Agencies. An Equal Opportunity Employer M/F.

**Technical Support Specialist.** Communication Studies Program, Niagara University, New York. Facility maintenance and organizational responsibilities supporting the operation of a university film production sequence. Electrical and mechanical skills pertaining to 35mm SLR and 16mm camera and sound equipment essential. Training and supervision of student assistants. Technical Support Staff appointment. Occasional equipment coaching duties secondary to technical duties. Salary negotiable, depending on qualifications. Apply immediately to Professor Bruce R. Powers, Dir., Communication Studies Program, Niagara University, Lewistown, NY 14109. An Equal Opportunity/Affirmative Action Employer.
