the audio record and playback heads in the location previously occupied by the pilot head.

Systex storage system, Gotham Audio

A computer-based audio system, the Systex, a 330-Mbyte hard disk storage system, has been announced by Gotham Audio Corp., 741 Washington St., New York, NY 10014. Designed to digitally record and locate audio information, it is intended for use by broadcasters and film/video editors who require instant random access to a library of audio material.

ELX-1 microphone/line mixer, Electro-Voice

A 4-channel microphone/line mixer, the ELX-1, has been announced by Electro-Voice, Inc., 600 Cecil St., Buchanan, MI 49107. The mixer offers a flat 30 to 20,000-Hz frequency response with low noise and distortion. Each input is switchable to mike or line level with internal phantom power for microphone inputs. The ELX-1, designed for studio or field use, weighs 5 lb. It has an LED peak indicator for each channel and a separate LED bar graph PPM output monitor. For users who prefer VU meter characteristics, the ELX-1 can be converted from PPM.
