*Model 2610 RMS voltmeter, Marconi Instruments*

The Model 2610 RMS voltmeter has been announced by Marconi Instruments, 100 Stonchurst Ct., Northvale, NJ 07647. It uses a hybrid thermal sensor to provide accurate voltage measurements of signal waveforms of almost any complexity with crest factors of up to 7:1 at full scale. Since the unit utilizes thermal techniques, the dc component of signals may be included in the measurement.

Automatic ranging operation is available in voltage, dBV, and dBm modes. Selection of the dB mode gives an effective single dynamic range of 130 dB. Relative measurements, including frequency response checking, are simplified by an offset mode that enables either an input to the voltmeter or a keyboard-entered value to be stored as a reference level. A dc output proportional to the true RMS reading is available to drive a recorder or function as a true RMS converter in control applications.

# FINALLY, AN 'UNDER \$10,000' NEWS CAMERA WHOSE BIGGEST SELLING POINT ISN'T THAT IT COSTS UNDER \$10,000.

There's no shortage of portables out there that sell for under \$10,000. The trouble is, price isn't the only thing they're short on.

The new Sony BVP-150, however, is another story. Its MF diode gun Saticon™ tube delivers performance that rivals cameras costing twice its \$8,900\* price. Like 650 lines of resolution at encoded output and a S/N ratio of 57 dB. Not to mention how it achieves a new height in depth of modulation for cameras in this class.

There's also the BVP-150's considerable range of automatics to consider. Along with the fact that it can generate composite output for recording on 3/4" or 1", as well as component outputs for direct recording on Betacam™. And, in either case, it's legally airable. Because, unlike many cameras in this class, the BVP-150 is equipped with an RS-170A sync generator and a true I and Q encoder.

But to get the whole picture, you should call: in NY/NJ, (201) 833-5350; in the Northeast/Mid-Atlantic, (201) 833-5375; in the Midwest, (312) 773-6045; in the Southeast, (404) 451-7671; in the Southwest, (214) 659-3600; in the West, (213) 841-8711.

And find out about the new BVP-150.

The "under \$10,000" news camera that gives you something even better than a low price: high performance.
