You've just gotten
the performance of a lifetime.
Now all you can do is wait.

© 1984 De Luxe Film Laboratories, Inc.

Count on us.

And waiting can be hard.
Unless you have knowledgeable
people. People who know your needs and
meet them. People you can trust.

No matter where you are or what the time, De Luxe
is ready to help.

Isn't it nice to know you're not alone?

THE NEW ROUGHNECK LAMP IS DESIGNED TO PREVENT THIS.

Unlike other tungsten-halogen studio light sources, the new Sylvania RoughNeck™ lamp is designed with a unique supporting collar.

This increases structural strength and enables the lamp to withstand additional torque at its press seal point, so there's less chance of breakage when moving fixtures or relamping.

The new RoughNeck lamp is not only tougher on the outside, it's also tougher on the inside.

Its filament leads are connected to the base with silver solder so that the lamp is much more durable while operating under high temperatures.

And, thanks to new manufacturing tech-

niques, the filament within each RoughNeck lamp is positioned more accurately than ever before.

This means maximum optical performance throughout the life of the lamp. Of course, it also means a tougher standard for other lamps to live up to.

For more information, contact your IED Independent Electrical Distributor or write or call GTE Products Corp., Sylvania Lighting Center, Danvers, MA 01923 (617) 777-1900 ext. 2650.

It works the way you do.

FUJINON's new 17X studio zoom will permanently change the way you use and feel about a lens. More than any other studio zoom, FUJINON has revolutionized the way you get greater efficiency and efficiency.

For instance, access to all important adjustments, just open one of the two doors.

The new 17X zoom incorporates more "FUJINON firsts" than any lens in our history. For example, you can preset limits on the zoom range to match the lens' mounting ramps.

you can preset a limit from which to change the zoom speed. The new pattern control lets you adjust where the lens zooms. You also have a range of adjusting and zooming.
