

# New Members

The following members have been added to the Society's rolls since the February 1985 cutoff date for the 1985 *Directory for Members* published in May. Also listed are those reported as deceased since then.

The designations of grade are the same as those used in the *Directory for Members*. An up-to-date list of the Sustaining Members appears

on the outside back cover of each month's *Journal*. The members listed below complete the Society's rolls as of September 24, 1985.

The *Directory for Members* shows the geographical membership distribution within each Section.

Honorary (H) Life Fellow (LF) Life Member (LM) Active (M) Associate (A) Student (S)

## Deceased:

L. A. Anderson (A)  
Jaroslav Boucek (LM)  
Nick Brauer (A)  
Bill Cameron (A)

Robert Laughlin (A)  
Charles Levy (M)  
Don R. Minkler (M)  
Jack Mitnick (A)  
Donald Baker Moore (M)  
S. L. Pat Mule (M)

Lucian E. Pope (LM)  
Michael Rettinger (F)  
Loren L. Ryder (H)  
John L. Sheldon (LM)  
Elmer C. Solar (LM)  
Michael Stechley (M)

James Stone (LF)  
William M. Stringfellow (LM)  
Rolf J. Stursberg (M)  
Henry Ushijima (LF)  
Peter H. VanAnrody (M)

# EASTMAN VIDEO TAPE WINS DROPOUT TEST.

Six leading brands of  $\frac{3}{4}$ -inch broadcast-quality video cassettes were recently tested by an independent lab for a major video publication. When it came to dropouts, Eastman professional video cassettes outperformed every other tape tested. For a reprint of the published test results, write to Eastman Kodak Company, Dept A-3061, 343 State Street, Rochester, NY 14650. And for more information about Eastman professional video cassettes, call 1 800 44 KODAK, Ext 861 (1 800 445-6325, Ext 861), or contact your nearest dealer in Eastman professional video products or your Kodak sales and engineering representative.

**O**ur VPR-80 type "C" is just about the lowest cost VTR you can buy without making quality compromises. That's why top level broadcasters, post-production facilities and corporate teleproduction studios depend on it for "workhorse" reliability and virtually transparent video quality. And why smaller, but quality conscious facilities use the VPR-80 for their most important video productions.

It also makes good business sense

to consider the VPR-80 when you're ready to phase out your 3/4" or quad machines. You won't believe the improvement this small but mighty VTR can make!

You'll find VPR-80s in hundreds of record, playback and duplicating applications, and also teamed up with our ADO™ systems, ACE™ editors, and Ampex switchers in complete post-production editing systems. So whether you're on a tight budget, but need the best — or just need a "work-

horse" that can *match* your best, call your nearest Ampex Sales Engineer for a demonstration. And remember, the Ampex product support team backs you up, everywhere.

# THE NEW AGFA XT COLOUR NEGATIVE FILMS

# TWO NEW SHOOTING STARS

New heights in film quality are now available. Agfa's XT 125 and XT 320 Colour Negative Films have arrived.

Better colour. Sharper reproduction. Finer grain. And total compatibility.

All due to Agfa's revolutionary crystal technology. So if you want to aim higher on your next shoot, you know what to do. Reach for the stars.

# THE NEW ROUGHNECK LAMP IS DESIGNED TO PREVENT THIS.

Unlike other tungsten-halogen studio light sources, the new Sylvania RoughNeck™ lamp is designed with a unique supporting collar.

This increases structural strength and enables the lamp to withstand additional torque at its press seal point, so there's less chance of breakage when moving fixtures or relamping.

The new RoughNeck lamp is not only tougher on the outside, it's also tougher on the inside.

Its filament leads are connected to the base with silver solder so that the lamp is much more durable while operating under high temperatures.

And, thanks to new manufacturing tech-

niques, the filament within each RoughNeck lamp is positioned more accurately than ever before.

This means maximum optical performance throughout the life of the lamp. Of course, it also means a tougher standard for other lamps to live up to.

For more information, contact your IED Independent Electrical Distributor or write or call GTE Products Corp., Sylvania Lighting Center, Danvers, MA 01923 (617) 777-1900 ext. 2650.

**SYLVANIA**

**Sony  
Broadcast:**

**The Gold  
Standard  
At Work.**

It's a broadcast U-matic® with nine years on the job.

A team of one-inch type "C" video recorders that pull a network load around-the-clock.

A Betacam® camcorder that gets that exciting story, or that impossible shot, and gets it on the air. Fast.

It's equipment that works right out of the box. Equipment that works with everything we make or will make.

It's training programs that keep you right on top of things.

It's a service and parts network that blankets the country. And an emergency hot line that's *always* open.

It's a company that came into being to meet your needs. And did.

The commitment continues.

Sony Broadcast.

The gold standard at work. **SONY**

When the Hitachi HR-230's real-time diagnostic system spots a potential problem during operation, it tells you what happened, and exactly where it happened. And it tells you in plain English.

The HR-230's computer controlled self-diagnostics continually monitors 49 different operational, maintenance, and troubleshooting parameters during both playback and recording. And it gives you the whole story up front on a console display and on the monitor.

Plus, you don't have to keep your eyes glued to the machine. Because the HR-230 stores it all in memory—along with the exact location—so you can go back and check later on.

But the HR-230 has a lot more going for it than just a great memory. Our retracting tape guides and tension arms—along with a non-contact

air scanner system dramatically reduce head and tape wear. It's compatible with all major editing systems. And such features as master/slave operation of up to 48 VTRs through its built-in editor, complete autoseup, pre-aligned replacement scanner, and a built-in TBC save you a lot of time and trouble.

And the HR-230 will save you money. Because nobody offers you so complete a machine for so modest a price.

For a demonstration in your studio, contact Hitachi Denshi America Ltd., Broadcast and Professional Division, 175 Crossways Park West, Woodbury, NY 11797. Or phone (516) 921-7200 or (800) 645-7510. In Canada, contact Hitachi Denshi Ltd. (Canada), 65 Melford Drive, Scarborough, Ontario M1B 2G6; (416) 299-5900.

 **HITACHI**

# THE FIRST 1-INCH VTR THAT TELLS YOU WHERE TO GO.
