3M ScotchCart® II broadcast cartridge

The ScotchCart® II broadcast cartridge has been announced by International Tapetronics Corp./3M, P.O. Box 241, Bloomington, IL 61702. ScotchCart II is a high-output, low-noise, lubricated tape that achieves high levels of performance. It utilizes a temperature-stable, nonrotating hub, thus eliminating the mechanical irregularities of conventional rotating hubs. Other design features include concave guides and a dynamic tension control system.

The Bettermount for Beta's camera mounting system has been placed on the market by Broadcast Video Rentals, Ltd. (BVR), 333 W. 52nd St., New York, NY 10019. The system has been designed for Sony Betacam Models BVW-3, BVW-3A, and BVW-30, as well as ENG/EFP models BVP-3, BVP-3A, and BVP-30. The Bettermount can be installed in 5 min.
