

New Sustaining Members

The following companies have recently joined the ranks of SMPTE Sustaining Members.

CAM-LOK, Inc., 10540 Chester Rd., Cincinnati, OH 45215, (513) 771-3171

For almost forty years Cam-Lok has built its reputation on designing and manufacturing electrical connectors to meet the exacting specifications of customers in a wide range of industries. Today Cam-Lok offers multi-pin connectors from 2 to 58 pins, #22 through #4/0 AWG; and single conductor disconnects from #12 AWG through 777 MCM. The J Series connector has been widely accepted in the entertainment industry for years for lighting and sound. The new Posi-Lok distribution panel system retains all the popular features of the J Series and adds additional refinements to allow this connector system to meet all the latest National Electrical Codes.

Eidophor Ltd., c/o Gretag AG, Altharstr. 70, Regensdorf ZH 8105, Switzerland, (1) 8421111

Eidophor Ltd. is a subsidiary of Gretag Ltd., the leading manufacturer of photofinishing equipment, color measuring instruments, data security devices, and laser engravers. Eidophor is the leading large screen TV projector on the market. It produces bright and brilliant pictures of up to 12x16 m (200 sq. m). Eidophor is an advanced display device. It can be used in every known TV standard. Hundreds of Eidophor projectors are in daily use worldwide in universities and hospitals, convention and congress centers, sport arenas, flight and naval simulators, TV studios, and military and civil command and control centers. Eidophor pro-

jectors are suitable for displaying high-definition pictures (HDTV). The projected wide-screen image proves to be of the high quality of a good 35mm movie film.

MAG-ZON Inc., 16134 Wyandotte St., Van Nuys, CA 91406, (818) 989-2059

MAG-ZON Inc. is proud to present in the U.S. the Zonal Magnetic. Zonal has over 30 years of experience in this high-technology area. The company's specialization is in the research, manufacture, and supply of professional magnetic recording media for the motion-picture, broadcasting, television, and music industries. The success of this wide range of products is the direct result of a deliberate approach to the establishment and maintenance of the highest standards in manufacture, quality control, R&D, sales, and after-sales technical backup service. Zonal appreciates the constant change and challenge as magnetic recording becomes more and more a feature of 20th-century technology.

Minutes of the Annual Meeting of the Voting Members of the SMPTE

White Plains, N.Y., June 1, 1989

The meeting was called to order at 2:00 p.m. The Executive Director having in her possession 1489 signed proxies, a quorum was declared to be present in person and by proxy.

The proposed amendments to the Bylaws were read, and the meeting proceeded to vote on each. The approved amendments and the total votes follow:

1. REFERENCES TO GENDER

Constitution and Bylaws

Amended to remove all references to gender. (The amended Constitution and Bylaws appear in the *Annual Directory for Members*, published April 1989.)

For: 1376

Against: 113

2. REGIONAL REPRESENTATION

Bylaws, Article III, Section 2, Subsection B

Amended to read: Each region shall be represented on the basis of one Governor for each 500 members, or fraction thereof, of any grade. No one section within a region shall have more than one Governor for each 500 Section members or fraction thereof, of any grade except by two-thirds vote of the Board of Governors. Governors representing regions in the United States and Canada shall be elected by the voting membership in their respective regions. International Governors shall be elected as specified in Article III, Sec. 6, below.

For: 1463

Against: 26

There being no further business, the meeting was declared adjourned at 2:15 p.m.

Respectively submitted,
Lynette Robinson, Executive Director
