24th Annual SMPTE Television Conference

January 26-27, 1990, Lake Buena Vista, Fla.

The 24th Annual SMPTE Television Conference will be held Friday, January 26, and Saturday, January 27, 1990, at Disney's Contemporary Resort in Lake Buena Vista, Fla. Editorial Vice-President Frank J. Haney, Capital Cities/ABC, Inc., has issued a call for papers on the theme "Television—Merging Multiple Technologies."

To have a paper considered, the author should send his/her name, address, telephone number, and a 100-word abstract of the proposed paper on an author form to SMPTE, Att.: Marilyn Waldman, Program Coordinator, 595 W. Hartsdale Ave., White Plains, NY 10607, by September 15. Author forms are available from

headquarters at this address. Additional details about the program can be obtained by writing to the SMPTE or by calling (914) 761-1100.

Program Chairman Clyde D. Smith, Lockheed Space Operations Co., and Program Vice-Chairman Paul Montgomery, Tasp Group, Inc., are planning four sessions, a morning and an afternoon session each day.

An all-day tutorial seminar has been planned for Thursday, January 25. It will be a hands-on opportunity for people to learn about post-production techniques. Tentative plans for the seminar include coverage of off-line editing, on-line editing, film-to-tape transfer, audio post-production, and electronic graphics. This session

is aimed at people with some prior knowledge of the technology. There will be a separate charge for this seminar; it will not be included in the registration for the main conference.

In addition to a full technical program, there will be a Get-Together Luncheon on Friday, a Coffee Club on Friday and Saturday mornings, and a Spouses Program. Evening receptions are being planned by Sony Corp. and Walt Disney World for all conference registrants.

As more information on the 24th Annual SMPTE Television Conference is available, it will be published in future issues of the *Journal*.
